# **SECTION I. The Structure and Intent of Your Life.**

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

## **A. Hemisphere and Quadrant Emphasis**

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

### **1. Hemisphere**

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

#### **Most planets Below the Horizon**

You have the majority of your planets below the horizon showing that you need time each day in isolation in order to recharge your batteries. You have a personal approach to life, preferring to work with people more than things and needing contact with the familiar in order to feel secure.

### **2. Quadrant**

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

#### **Most Planets in the First Quadrant**

You have the majority of your planets in the first quadrant showing you will seek a lot of life experience to enhance you and develop your sense of selfhood. Your own personality and its uniquenesses and intricacies are the major focus of life experience for you.

## **B. Elements and Modes**

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

### **1. Elements**

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought,

WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

#### Fire

You have 30% of your chart in the fire element. This fire supplies you with great energy for your own personal projects. Still, you suffer if the projects that you select are too big. You need quick victories to keep from losing heart, and to keep believing in yourself. The magic ingredient is believing in yourself. When you forget this, your life produces much frustration; you end up driven by duty more than desire. The trick to working with your fire element is to design the placement of your energy so that you get sufficient positive reinforcement, enabling you to keep reinvesting in your own projects.

#### Earth

You have no earth in your chart. This means that the material world and its difficulties are not much of a focus for you. The resources in your life come and go without giving you a great deal of concern. You can always locate money or its equivalent when you are truly interested.

#### Air

You have 30% of your chart in the air element. You vacillate between being very interested in people and ideas and needing time by yourself. Periodic isolation and an involvement with routine, commonplace activities that do not require innovation are relaxing for you. You need both spontaneous activities as well as predictable patterns in your life.

#### Water

You have an abundance of water in your chart. You are very emotional and quite empathetic. You feel others' pain so deeply, you can be moved off the path from your own goals unless you develop a strong sense of self-definition so as to separate out your own needs from those of others. You need something to do in life that gives full ventilation to your feelings. Your sentimental and emotionally potent approach to life polarizes people who will either appreciate you for this trait or be repulsed because of it. You tend to separate people, in your mind, into those that belong and those that don't. You find any habit, good or bad, very difficult to change.

## 2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleability, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

#### Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

#### Fixed

You have 30% of your planets in the fixed mode. You know how to persist on a course of action that you have selected. On the other hand, you have good sense generally as to when to desist. You are well poised between your ability to change and your inclination to let your habits carry you forward.

#### Mutable

You have 30% of your chart in the mutable mode. Adjustment to new circumstances is relatively easy for you. Part of your nature is very stimulated by change. You like to think about your experiences so as to accommodate any new information that occurs. This is not your only way of being but your favorite mode of operation can be reactive. Exposure to new ideas and methods can help you be calmer while still helping you maintain interest in life.

### C. The Ascendant and Midheaven (Signs and Aspects)

#### 1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

#### TAURUS RISING

You have a strong countenance. People are consistently amazed at how tenacious you can be. You are completely undistractable once you start on a course of action. This persistence can be an asset or a debility depending on how open you are to correction and how honest you are with yourself as to what is and isn't working. There is a conservative core in you that seeks a direction of meaning in life without ever sacrificing base line security. The ability to ignore things in life that do not fit your picture can help you accomplish material and emotional stability and security but there is a difficulty. Because you ignore things that don't fit your picture in life you end up having people communicate with you in covert ways. You, in turn, learn this talent early in life and become less than direct in your own communications. Periodically, the undigested and unrecognized material going on between you and others surfaces. When this happens your life may be in chaos while you adjust to the new information. Luckily, this readjustment only happens every so often.

#### Venus Sextile the Ascendant

Diplomacy and charm help you deal with people. You wish closeness with those whom you share a similar cultural background. The ability to express beauty will aid you in any career but is particularly helpful dealing with people as you naturally see alternative points of view.

### Mars Square the Ascendant

You are often frustrated. The roots of your anger, causing so much pain in your life, are conflicting desires. This conflict can certainly make for difficulties in both your professional and family life. Strive to make your inner conflicts explicit so that you can understand and come to terms with them. Find safe, physical releases for your pent-up energy.

### Jupiter Semi-Square the Ascendant

Overindulgence and too much of the "good life" slows you down on the long road to self knowledge. Don't be afraid to say no to your social life. Remember, you don't need to have it all in order to be happy. The road to success is found through being content with what you have.

### Saturn Square the Ascendant

You have carried many issues from your childhood forward that need to be addressed wholesomely before you are able to achieve the success that you seek. Your brand of self-disciplining seems overly restrained and repressive to others. Responsibility is a stumbling block for you. It is difficult for you to see clearly what really obligates you. The more that you express your true thoughts and feelings the more you overcome your tendency to complain. You are shy and have a problem putting your best foot forward in life. You don't feel that you deserve what you want so you often attempt to get your second choice rather than asking for what you really want. This can lend itself to you feeling very self-sacrificing when this tendency is really just a way of perpetuating your shyness. Be responsible, but enjoy life.

## 2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

### AQUARIUS MIDHEAVEN

You have an instinctive feeling that you can do things your own way. You may ignore the obvious, thinking you have the basics taken care of. You are self-reliant and unique in your approach to career. Freedom of self-expression is very important to you and this drive may encourage you to sacrifice career objectives that would otherwise give you security.

### Mercury Trine Midheaven

You have a knack for making changes in life-style and career to accommodate changes in the world. Your language skills are an important asset in the performance of your job or social position.

### Jupiter Quincunx the Midheaven

Every so often you take a great leap forward in life. If you have the good grace and luck to recognize the help you have received from others, you don't have to suffer the pitfalls of going forward and then falling back. Recognize the magic of feeling grateful and your life becomes a blessing, moving from one victory to another.

## Uranus Square Midheaven

Working for someone else is almost unbearable. You much prefer the freedom to design your own hours and work methods. You have real difficulty getting along with others in positions of authority. Remember, although you know exactly what you are doing at times, your methods and actions look arbitrary and chaotic to others unless you take the time to explain yourself. This is always to your advantage as others are important to you.

## Pluto Trine Midheaven

Computers, math, psychology and working with symbols can be important on your job. You like digging out secrets and can be very well suited for research. You have strength of character that makes you a difficult person to oppose.

### D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

#### Sun Conjunct Mercury

Think of Sections II. THE SUN - Your ego structure, and IV. MERCURY -Your mental life, as a single unit. These two very primary ingredients of your being express themselves together. Whatever affects one of them affects both of them. This Conjunction represents a central theme in your life.

#### Moon Conjunct Venus

Think of Sections III. THE MOON - Your personal life, and V. VENUS -Your love nature, as a single unit. This Conjunction colors your unconscious habits and your basic attitude toward life. This is an extremely important ingredient of your identity and represents a primary attribute of your personality.

#### Moon Conjunct Jupiter

Think of Sections III. THE MOON - Your personal life, and VII. JUPITER - Your values, as a single unit. This Conjunction colors your unconscious habits and your basic attitude toward life. This is an extremely important ingredient of your identity and represents a primary attribute of your personality.

#### Mars Conjunct Saturn

Think of Sections VI. MARS - Your energy, and VIII. SATURN - Your obligations, as operating together. This Conjunction shows your exacting nature and your desire for focus in life. This is a central theme upon which you will build many variations.

## **SECTION II. The SUN - Your Ego Structure**

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

### **SUN IN GEMINI**

You are versatile and adaptable. Usually, you have fifty projects going, all at the same time. You are interested in everything, but this makes it very difficult to do anything in particular very well. You love to relate. You build your day and your life around interactions with people, ideas and events. You are a rapid learner and a good communicator. Often, your learning is on the surface and your communication is just imitative, but you can reason and are not afraid of innovation. Try to be more consistent in your approach to life. When you are well organized, you accomplish. When you develop sympathy for others, your relationships become more stable.

#### *Sun in 1st house*

You put your personal hallmark on everything you do. Your energy and enthusiasm tends to inspire others. You find it hard to take a "back seat" to any project in life if you perceive it as affecting you personally.

#### *Sun in 1st house Unafflicted*

Your keen sense of direction and focus inspires others. You convey the picture of a competent person to others, and you will live up to this expectation more times than not.

### **SUN CONJUNCT MERCURY**

You have a very close alignment between your mental skills and your ego. This can give you great depth of perception and great resolve. You need to be careful that you don't become dogmatic or develop "tunnel vision". When you become focused on one thing for a long time, you may suffer from nervous exhaustion. Learn to take breaks without losing your initiative.

### **SUN IS IN HARD ASPECT TO YOUR NEPTUNE**

You have a deeply secretive side to your nature. You are romantic, humanitarian and idealistic. You suffer from an excess of emotion and exaggerated sensitivity to anything that goes wrong in life. Unfortunately, something going wrong can mean merely that it didn't live up to your expectations which can be quite inflated. Your life becomes a dynamic, unstoppable force for good once you accomplish two things: one, you must become self disciplined (i.e. ascetic) enough that you overcome self-indulgence in every form, and two, you must know life by knowing, really knowing, yourself.

## SUN OPPOSITION YOUR NEPTUNE

Overly emotional and often confused, you need grounding for your idealism to avoid difficulties regarding commitments, responsibilities, and expectations. You have high standards and high expectations but it takes a large amount of self-work to become more than a dreamy well wisher in the parade of life. Emotional balance and genuine self knowledge come with great difficulty but are necessary prerequisite for manifesting your spiritual and creative potential. You tend to live in a fantasy realm, full of romantic illusion. You easily attribute to others, the latent unexpressed qualities of your own being.

## SUN IS IN SOFT ASPECT TO YOUR PLUTO

You are penetrating in your insight and informative in your suggestions to others. You ask a good deal of yourself and are driven unconsciously toward important issues. You have an instinctive and natural grasp of fundamentals. You approach anything new with a blend of distrust and curiosity, but when you commit to some project you are one hundred percent behind it and execute your part with daring and self-confidence. You make a true friend and a great ally. Your vitality is very strong.

## SUN TRINE YOUR PLUTO

You expect greatness as well as deep, far reaching effects for your efforts. Your vitality, personal magnetism and drive produce fortunate and accomplished results. You put your "Hallmark" on everything you do. You are insightful, being a good investigator and a genuinely healing individual. You have a magic ability to transform yourself and every situation through your intensity of focus.

## **SECTION III. The MOON - Your Personal Life.**

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

### **MOON IN CANCER**

You are sympathetic and sentimental. Your imagination and feelings are well developed and run deep. You have a deep emotional bond with things and people from the past. You cherish anyone that you have had an emotional connection with. There is an idealistic and romantic element to all your relationships. You are at home in the home. You have a strong domestic side to your personality and you enjoy cooking for others and nurturing them. If you find yourself falling into a mood or being very shy and withholding, attempt to become more verbal. Many difficulties can be straightened out by talking.

#### *Moon in 3rd house*

You have deep emotional connections to your early childhood. Your memory is keen, your mind is versatile and you feel comfortable in an environment where learning is valued.

#### *Moon in 3rd house Unafflicted*

Your friends and acquaintances think of you as a good communicator. You can be very good at arbitration because you naturally empathize with several points of view. Part of you always stays childlike and attached to the pleasant memories from your early childhood.

### **MOON CONJUNCT VENUS**

You are gentle, kind, pliable and pleasant. You are friendly and affectionate. People generally like you. You have a pleasure-loving side of your personality that can easily become self-indulgent. This is generally not a problem as long as you stay focused on the outside world, the public and other people. Strive to stay in a cheerful and "upbeat" mode.

## MOON CONJUNCT JUPITER

You are sincere, generous and joyful. Your life tends to go from good to better mostly because you are optimistic and expect it. For the most part you are healthy and robust. Sometimes extravagance and overindulgence can cause you difficulties. Too much of the good life ends up limiting your freedom. Once you learn moderation and contentment you experience deep and continuous inner joy.

## MOON IS IN SOFT ASPECT TO YOUR URANUS

You are a good idea person. You are highly emotional and intuitive. New thoughts and methods come to you in flashes. Make it a practice to write new ideas down as they occur. Your ability to explain your thoughts to others, once initially shaped in written form, can find further refinement through discussion if you are a careful listener. You are seldom satisfied unless you are making changes and the more innovative, the better.

## MOON TRINE YOUR URANUS

You take bold steps in your approach to everyday problems. This gives your personality a sparkle and excitement that others love and respond to. You know how to make excitement out of everyday activities, as you search out new methods for performing routine activities.

## MOON IS IN HARD ASPECT TO YOUR PLUTO

You easily get so emotionally "locked up" that it becomes difficult to alter or arrest a pattern once it has begun. You can suffer a lot by cutting yourself off from others. You may end a relationship that you desperately want if you feel the other person may reject you or abandon you sometime in the future. You demand a loyalty from others that isn't only unrealistic, but is also something you are incapable of or unwilling to give to others yourself. Further, you are capable of forming compulsive attachments where you hang onto a relationship long after the other person has left you emotionally or even physically. In either of these cases, clearly you have to come to terms with the issue of power and control. Don't be afraid of not being in control. Achieve self-control, understand your own emotions and your life becomes much easier. You might explore your relationship with your mother as it had a much deeper effect on you than for most people. You have ability to work with large figures and with money and finance. You are able to conceptualize many different items of experience simultaneously. If your emotions don't get in your way, you become a leader in some realm.

## MOON SQUARE YOUR PLUTO

Feelings of judgment and disagreement with others can leave you feeling paranoid. Emotional limitations and self-judgments stop you from being open with others. Realize that excessive secrecy stops you from getting correct (or enough) information from your environment. Self-defeating habits hold you back until you are able to get beyond unconscious fears.

## **SECTION IV. MERCURY - Your Mental Life.**

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

### **MERCURY IN GEMINI**

Your mind hops from thing to thing like a starving wolf in a cage full of bunny rabbits. You see all sides of every question and then invent a few more to explore. You are logical, inquisitive, and mentally alert although your insights may be completely superficial. Develop depth and persistence, then you have the best of both worlds. When you talk, people will often be moved by your witty, humorous form of rationalization. You are good with words although you may like them more than they deserve. You like inventing new words and sounds and ideas. If you also have continuity in your expressions you may well become an expresser of great ideas as well as a great learner. You are making adjustments to circumstances in your environment all the time, whether they are required or not. You like change.

#### *Mercury in 1st house*

You use your reasoning skills to get by in life. Your eyes and your attention flit from thing to thing in your environment. You are adaptable and good at imitating anything that you have observed. You can be quite eloquent. You are interested in everything.

#### *Mercury in 1st house Unafflicted*

You are good at knowing how to explain yourself and your actions to others. You know when to stop explaining and when to change direction in your approach to a problem. In this sense you are very clever.

### **MERCURY IN ASPECT TO THE SUN**

Your mental life is very closely tied in to the core of your being. We looked at this connection in Section II. The Sun -Your ego structure.

### **MERCURY IS IN HARD ASPECT TO YOUR NEPTUNE**

You see more than you can do. It's as if you are being led through life responding to a voice that no one else around you can hear. People may like you a lot and yet think you are quite naive. You believe in things that others think of as make believe. This is part of your charm, for part of you has always remained a child. You need to make sure that you know how to communicate to others based on their perceptions and beliefs, otherwise you have great difficulty belonging to a larger world than the one of your own creation.

### **MERCURY OPPOSITION YOUR NEPTUNE**

You have great difficulties communicating your ideals and values. You see what you want to see. Perceptions and imagination get confused. Work to get your creativity and highest aspirations across to others regardless of whether or not they receive and understand what you say.

## MERCURY IS IN SOFT ASPECT TO YOUR PLUTO

You go to the origin of a problem once you start working on it. You communicate with a quick, soft-spoken force that others pick up on magnetically. You have both broad range and depth of interest. You are very versatile and make a great problem solver. Your mind is naturally interested in security issues which can run the gambit from ordinary cops and robber stuff, to high tech computer theft, national security, and the international monetary fund. To fully use your skills you should spend time analyzing your motives. Do a thorough investigation as to your own beliefs about the meaning of life. Once you have these issues resolved you will not feel as secretive and your mental energy will be freer.

## MERCURY TRINE YOUR PLUTO

Your understanding and depth of insight insure some progress in any field of study. You are good at solving mysteries as you "see through" any situation. You feel the inner connections between events, have good technical skills, and love exchanges over deep subjects. Avoid becoming so deeply involved in your own environment that you don't connect with the outer world.

## **SECTION V. VENUS - Your Love Nature.**

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

### **VENUS IN CANCER**

You love home, the past, food, and warm romantic notions. You are nurturing and affectionate. You are a truly gentle lover. Your affections are very sentimental and devoted. You can bend over backwards to make someone else feel good. When you run into trouble in life the origin can be that you have a maudlin dwelling on the past that stops you from experiencing spontaneous joy in the present moment. You find inner peace through regular patterns in your everyday life. Your imagination mingles with your memory to create harmony and comfort in your home and family.

#### *Venus in 3rd house*

You have a natural attraction to things which improve your mind. You love music, art, and good literature. You love pleasant interactions with your relatives and neighbors.

#### *Venus in 3rd house Unafflicted*

The communicative skills you have will naturally find expression in whatever you do. Travel may be very pleasant and you may take short periodic breaks as a means of staying balanced.

### **VENUS IN ASPECT TO THE MOON**

You have an aspect between Venus and the Moon. This shows that you have a powerful emotional nature and are affected at a deep level by other people's thoughts and opinions of you. This was taken up in some detail for you in Section III. The Moon - Your Personal Life.

### **VENUS IS IN SOFT ASPECT TO YOUR URANUS**

You are a colorful and romantic individual that looks for the unique in life and generally finds it. You have unusual ideas about sex and human relationships. Behind your revolutionary zeal is a real humanitarian that wants to see a better world free of prejudice. You have a good eye for spotting unusual sources of income. Although the picture fluctuates a lot, finances get easier as you get older.

### **VENUS TRINE YOUR URANUS**

Your artistic and dramatic flair thrusts you forward every so often in ways that create a new expression for your feelings. Your taste is exotic and you look for expressions of your love in ways that create exhilaration and a sense of personal freedom.

### **VENUS IS IN HARD ASPECT TO YOUR PLUTO**

You are a great manipulator and are often caught up trying to make things appear a certain way. You are the one who suffers from this tendency the most. You tend to get tied down to a pattern of endless repetition in relationships. You have difficulty in letting go even when a situation is painful. You are always dealing with people as symbols of others who are

not even present. Love and power become confused with one another. You have a deeply lodged need to establish your sense of self worth. Once this is secure you can overcome your fear of being dissolved in a relationship built on equality and will start having more normal interactions. You need to be less concerned with how you appear to others and more concerned with how you are.

#### VENUS SQUARE YOUR PLUTO

Your extremes of emotion and expression stop you from being able to get what you are attracted to. If you see that you have been through the same picture a number of times; notice that your own fear, paranoia, and sedentariness is stopping you from making important deep changes. Relax. Trust. Change.

## **SECTION VI. MARS - Your Energy.**

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

### **MARS IN LEO**

You have a desire for leadership. Your energy is totally committed to whatever your impulsive nature leads you toward. You are benevolent and your method of getting what you want is to approach it as if you already had it. You are ostentatious, loyal and authoritative. You have a command of the field but you would benefit from being more in touch with the details of any project.

#### *Mars in 4th house*

You will feel a strong need for control in your environment at a very early age. As a child you may have created a mess many times to get a feeling of control. As an adult, this same need can carry over. Be sure that you don't take out your frustrations on people you live with or your family. You may be most productive working out of your home. This is often where you feel most secure. In many respects you are a loner. Get time by yourself each day.

#### *Mars in 4th house Afflicted*

You may have a lot of unrecognized and unexpressed anger. This energy can emerge as unsavory emotional expression that mirrors early life frustrations. Learn to see your feelings more clearly and to express them most directly.

### **MARS IS IN HARD ASPECT TO YOUR JUPITER**

You are lucky but overstep your limits time and time again. You are truly lucky when you learn how to walk away from the dice table a winner rather than always going for double or nothing until you lose. Your tendency is always to try to multiply a winning situation rather than just accepting it as a win at face value. Enough is enough, learn to be satisfied. In human relationships you are often in a kind of good-natured competition even with those on your team. You think of this as building character and personal reliance but others will see you as selfish and a poor team player. Your boldness and bluntness needs to be curbed; for even though people may like you, they will not trust you.

### **MARS SEMI-SQUARE YOUR JUPITER**

Wrong headed concepts about the nature of a project in front of you can cause you to misuse your energy. "Short cuts" often mean starting over again. For all of this, your energy and enthusiasm alone is responsible for bringing you some success in life. Your best line of self correction is to always look before you leap.

### **MARS CONJUNCT SATURN**

You hold yourself back in life and though you are kind and very patient with others, your timing is poor and it stops you from getting what you think you want in life. You are always trying to reform your desires and when you assert a want, a fear surfaces simultaneously. You give up many times, just when the world would have given you what you were asking for. You will think about a project and start it one minute too late to accomplish it. The difficulty with this aspect of your character is very slow to change. When it does change it is because you overcome your fears and your unbalancing desires. To the degree that this is accomplished you will achieve security in life. You should get strenuous physical exercise at least

three times a week in order to have your energy work evenly and to be in good health.

#### MARS IS IN HARD ASPECT TO YOUR PLUTO

You have lots of energy that erupts into violence every so often leaving you confused and exhausted. In industry, you have a taste for secrecy and covert operations. As a warrior you are more at home leading a guerrilla band in the jungle than as a general leading the parade down Fifth Avenue. You are at war with yourself. Your conscience is at odds with your desires and only long-range study and integration of your personal values can lay the foundation for smooth, comfortable, and regular energy. Until this happens, you suffer from having abundant energy that bursts forth violently, then little energy for a spell. The violence, anger, and disagreements with others stop as well as abnormal needs for secrecy (which just becomes more normal needs for periodic privacy) when you arrive at some degree of self-understanding.

#### MARS SEMI-SQUARE YOUR PLUTO

You have deep and potent energy yet you find it very difficult to access and control this energy. You can see more than you can accomplish and this trait can keep you working without rest or break. You are able to get to your goals. You overcome misunderstandings with others when you take time to explain your actions. You can frighten people with your willfulness and potency of expression. When angry or even just very enthusiastic, you suffer from your own bad decisions, which leaves your personal resources very depleted. Think before you act.

## **SECTION VII. JUPITER - Your Values.**

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

### **JUPITER IN CANCER**

You believe that you have the finer things in life coming and you are good at attracting security because you expect it. Others appraise you as quite lucky with the material world and its concerns. There is a reason for this. You value traditional things. At an instinctive, basic level you gravitate naturally to the techniques and procedures that have worked in the past. They work again, and for you. Because you are emotionally "plugged in" to the things that have worked in the past you seem to be successful and conservative. Your interest in, and acknowledgment of, traditional values is unconsciously recognized by others. Friends, family and society help you find your niche in life. Others benefit from your success and you are quite generous when you feel in empathy with others' struggles to meet the basic demands of life. Although you are sentimental, you can be exceedingly practical. You have a colorful imagination that focuses on and admires the past circumstances of both your personal family and community. These perceptions, expectations and value judgments set the stage for the development of your ethical perspective. Business ventures are evaluated based on their ability to improve all life in the long run. If a business direction feels right and looks honorable it will appeal to you because, under these circumstances you believe it will work. You look for opportunity to come in ways that increase your emotional and material security. You have a natural attraction to food and domestic experiences.

#### *Jupiter in 2nd house*

You feel optimistic and confident about money. You anticipate that material good will come your way. Your optimism may translate into a philosophy of abundance as you get older.

#### *Jupiter in 2nd house Unafflicted*

You get away with things that no one else seems to be able to do with the material world. You are able to create your own reality. Money keeps coming; even when you are careless with it (which is often) or extravagant (which is not infrequent) you are able to postpone disaster. You have never been flat broke! You never will be. Your feeling of self worth and natural abundance protect you. You are worth a lot and this knowledge keeps a flow in your life even when you aren't doing much.

### **JUPITER IN ASPECT TO THE MOON**

You have an aspect from Jupiter to the Moon showing an interest in expressing values through your daily life. What you believe has more impact on what you do than it does for most other people. The information on this topic in Section III. (The Moon - Your Personal Life) may be helpful in grasping how you do this.

### **JUPITER IN ASPECT TO MARS**

You have an aspect of Jupiter to Mars. This aspect shows that you have an optimistic spirit and have the ability to assert your desires. Your enthusiasm may come forward as combativeness or as competition but in either case you are a lively participant in life. Your values and your energy emerge as zest for living. This aspect is commented on further in Section VI. Mars - Your Energy.

## JUPITER IS IN HARD ASPECT TO YOUR SATURN

You suffer because you remember your failures more than your successes and consequently have a hard time developing a picture of yourself as a winner. In this sense you were born old. However, this same quality engenders a childish quality in you that tends to look for the "quick fix". Hard work and consistency of effort brings success for you just like it does for everyone else. Yes, you need some luck or some breaks, but these come from perspective, vision or aim in life. Work to see yourself as deserving good things in life, then be willing to put forth honest effort.

## JUPITER SEMI-SQUARE YOUR SATURN

You have to repeat your starting procedures many times in the process of laying foundations in life. Don't build beyond your foundations and your path to success will be faster. This is difficult for you because you can see more than you can do and you are constantly tempted to go out on a limb. This leads to having to start over again many times. Staying with your foundations allows you to overcome limitations and difficulties much more swiftly than you would imagine.

## JUPITER IS IN SOFT ASPECT TO YOUR URANUS

You are a real humanitarian, wishing only the good and best for yourself and the world. You are a possibility thinker. You envision the good and ask "why not"?! You see a broad and very versatile picture of the way things are in life. Often this vision allows you to take advantage of critical timing of personal events. You are at the right place at the right time. To others you appear lucky. You are! Your personal successes are in tune with your basic humanitarian outlook.

## JUPITER TRINE YOUR URANUS

Your underlying faith in life leads you to the right conclusion and the right spot, even when circumstances are difficult. Your luck descends at times when you act spontaneously and without forethought. Your pictures in life are painted with bold strokes indeed. You operate with great confidence and swiftness, believing that life is full of potential for you.

## JUPITER IS IN HARD ASPECT TO YOUR PLUTO

This life certainly has its ups and downs for you. Your tendency to exaggerate, overindulge or over-commit yourself gets you in trouble until you adopt the philosophy of life that "you get out of life what you contribute." At this point you stop trying to get something for nothing and your financial picture becomes much more stable. You get in your own way at times by over-assertion or saying the wrong thing. You can have a bluntness and a vulgarity that creates a negative picture that you may have a hard time overcoming. Gain control of your own life and the path to higher success is not only swift but fun.

## JUPITER SQUARE YOUR PLUTO

Intensity and hard work doesn't always give good results. When you become compulsive, your problems often grow exponentially rather than just reaching a resolution. However, there is a side benefit from this expansion. Your efforts at problem solving bring new items of interest to the surface and you plow through the fields of your daily existence. You learn about life, yourself, and your value system by seeing the kinds of difficulties you attract. The worst disasters in your life seem to leave you unscathed and this type of luck should give you deep gratitude.

## **SECTION VIII. SATURN - Your Obligations.**

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

### **SATURN IN LEO**

You are motivated by a fear of just being another person. You defend yourself when attacked with very dramatic and hyperbolic idioms. Avoid overreaction. You are striving to develop genuine heart qualities of warmth, sympathy and understanding. You are somebody, accept it, then don't take yourself so seriously. Develop a sense of humor.

#### *Saturn in 4th house*

Your family has given you a legacy that makes it hard for you to have more than a very limited horizon. Your negative expectations can be self fulfilling prophesies which are ultimately based on an inadequate self picture. You need to overcome worry about your own future. A deep seated caution in your emotional life prevents you from opening up to others very quickly. Consequently, you need to move slowly any time that you are making fundamental changes in your security network.

#### *Saturn in 4th house Afflicted*

Worrying about your circumstances can make you overly self-acquisitive and self-seeking. Don't avoid responsibilities; and certainly don't be afraid of or jealous of established authority structures. Habits of responding to people and circumstances of life tend to be learned responses from early in life and situations in your family of origin. These may be so limiting that you are artificially cutting yourself off from the goodness of the world. If this is true, try to become more emotionally open with people.

#### *Uranus in 6th house Unafflicted*

#### *Neptune in 7th house*

Other people represent a higher ideal. You are prone to do a good deal of projecting in relationships until you find the ideals in yourself that you see in others.

#### *Neptune in 7th house Unafflicted*

You form platonic unions that facilitate the other person in expressing their highest ideals. Romantic illusions can carry you far from your goals in life. In your personal life, stay focused on the present with less expectations for the future with other people. Your belief in other people's inherent goodness is an active force for helping them bring forth their better selves.

### **PLUTO IN LIBRA**

At best, you are genuinely in love with peace and beauty. You wish for justice and harmony. At worst, you are detached to the point of having no particular viewpoint of your own. You go with the winds of fortune, rationalizing and blocking all the way. Expressing your true feelings to others helps you access the deeper issues that sidetrack your attempts to transform your life.

#### *Pluto in 5th house*

You may go through several life or death struggles to get the creative spirit in you to come out. No matter how much you seem to give, there is always a feeling that you are holding something in reserve.

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

#### **YOUR MAJOR PLANETARY ASPECT IS A TRINE.**

You like to do things in a big way. You are optimistic and expect to win. Your positive attitude and general long range view in life gives you the best possible chance to make something good come from your various talents. Even setbacks look like an opportunity to grow. Your ability to avoid difficulty seems like luck to others while it is a natural and obvious skill to you. Your keyword is Enthusiasm.

### **B. YOUR EASIEST AREAS.**

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Well-Aspected Uranus.

You can spot unique opportunities and use them creatively for the upliftment of any situation. You are able to alter a troublesome circumstance by doing the unexpected. In any situation, when you do anything that suddenly shifts the dynamics, the outcome is frequently very advantageous.

Sun in the First House.

Your ability to place everything that happens into the context of the immediate moment helps you put life into perspective and consequently gives you more vitality. You develop a sense of identity and purpose by acting directly on your deepest feelings.

Moon in Cancer.

Your instincts and personal feelings are so deep and your ability to bond with others so direct and honest that you easily get along with anyone you have established a positive past history with.

Mercury in Gemini.

You have a great asset in your mental versatility and in your ability to switch directions. You find strength in change and when in trouble you can see alternative points of view and a number of different strategies for acting.

Jupiter in Cancer.

You know how to feel at home under many varied circumstances. You have the ability to grow emotionally through almost every experience. Your instincts are right on target, as to how people are connected with each other and circumstances will work out.

Uranus in Scorpio.

Your instincts to survive and your lack of restraint can create some very unique situations where you become personally responsible for the growth and development of new and useful ideas in your own life as well as society.

### C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Afflicted Mars

Your desires often get you into trouble. Rechanneling your energy into something constructive is very difficult. Your natural tendency is to repress your wants or to trade one extreme, like anger, for another such as lust or greed. Your energy is still a winning quality and good effort eventually brings good results. You can learn to redirect your impulses through hard work, patience and consistent attention to results.

Afflicted Saturn

Fear and self-restriction have stopped you many times from enjoying life as much as you could. Work on breaking the habit of worrying by learning to see it and feel it as starts to manifest and using your sense of detachment to stop it. When you act unkindly to others or you are reacting to their unkindness to you, get to the roots of your fears. Force yourself out of your fears and refuse to let them be your motivation. You will see a new picture of the universe and your place in it start to develop along very pleasing lines.

Mars in the Fourth House

You have tremendous energy for anything you become involved in but your energy has a habit of running into other people's intentions and motives, then going underground. Be more explicit with others as to your true wish. This will help you to sort out your own direction.

Saturn in the Fourth House

You have to overcome self-limiting fear. You are very able, but you get in your own way because you have poor expectations for the results of your actions. Believe in yourself and life, then your fears just become common sense.

Saturn in Leo

Self-doubt and fear of others propels you into self-defeating forms of personal defense. This form of protectionism makes it hard for others to see your better side. By becoming more loving and more open, your dramatic inclinations help you build bridges rather than barriers between you and others.

### D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the

growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

#### Sun in Growth Aspect to Moon

You undergo development throughout this life via the process of your ego drives learning to work in harmony with the circumstances of your everyday existence. As you get older you ask more of yourself as you adjust to circumstances of each situation rather than fighting them. To do this without lowering your goals, standards, and expectations is the trick, but it is also the path of personality maturation.

#### Sun Semi-Sextile Moon

You pay extra attention to how your activities start and stop. Growth can occur quickly when you concentrate the majority of your energy on how you get involved and how you complete each task. The principle of inertia takes care of a lot of the middle ground for you. Your time and energy does best when focused on the things that are changing. You have the capability to adjust to outer world circumstances and changes, and it is through this that your life improves as it progresses.

#### Sun in Growth Aspect to Uranus

Your path of growth leads you to acquire more self expression. Your willfulness comes to the forefront of your personality every so often, then overtakes you. This quality of spontaneous assertion takes time to see, moderate, then harmonize with other ingredients in your personality. You wish to express your uniqueness, but opportunities to assert your individuality systematically and wholesomely occur infrequently. Slowly and with great effort, you develop a skill and rhythm to deal with this circumstance.

#### Sun Quincunx Uranus

Your self expressive urges are usually misunderstood by people and this creates frustrations for you. As you disconnect from the need to be understood and get more in contact with the will to achieve positive results from your actions, your true self emerges from the core of your personality. You grow by learning to leave well enough alone.

#### Moon in Growth Aspect to Neptune

You have an overly sensitive response mechanism to life which you periodically express and occasionally cover over. Facing the inconsistent emotional components of your imagination allows you to gradually corral this side of your nature into your daily habits in a useful and enriching way.

#### Moon Quincunx Neptune

Romantic and idealistic, you easily project qualities onto situations and people that they can't possibly live up to. The root of this problem is really inaccurate self appraisal. You expect more from yourself than is realistic, then react to your shortcomings with guilt driven service to others and deep expression of overly sympathetic feelings. In the long run you have many opportunities through this aspect of your nature to refine and express your higher vision of the truth to others. Through this expression your daily life becomes a clearer picture of your true inner being.

## Mercury in Growth Aspect to Jupiter

Learning to express the truth of any situation without exaggeration or self hyperbole is a long lesson. Consistent refocusing on the higher implications of life, the moral and ethical significance of actions, has a refining effect on your mind.

## Mercury Semi-Sextile Jupiter

You often see more than you can materialize. Your first response to this situation is to try to develop more effective procedures. You keep refining your tools and performing your tasks ever more efficiently, but the real lesson here is you need to go on. Don't be satisfied with being a "big fish in a little pond". Growth comes by being willing to put yourself into a bigger arena. This should not have to be a jump of blind faith, but instead, change and growth to a bigger community should be a clear and natural transition.

## Mercury in Growth Aspect to Uranus

You come up with ideas that sound great but are not possible to materialize. Remember, genius may be partly inspiration but not every idea is worth the effort to make manifest. Your inner life can generate thousands of good ideas that you can't do anything with. Be discriminating and your efforts are less likely to be wasted.

## Mercury Quincunx Uranus

The new and unusual things that occur to you may carry you far from the basic needs of your everyday life. Good ideas do not necessarily require you to act immediately to bring them about. Positive innovation will require you to alter yourself and your basic habits before you will see much change in the world or your environment.

## Venus in Growth Aspect to Neptune

Can you create what you see? Discipline and practice are necessary in order to share your vision of the higher beauty with others. Further, openness to others' perception of love is an important part of being able to share your own vision. Happiness comes through being resilient in the face of disappointment and frustration. Faith in the truthfulness of your own higher vision is necessary in order to have the patience and persistence to raise your love to an adult level.

## Venus Quincunx Neptune

You are suffering at times because you are attracted to inaccurate perceptions of others. This is based on incorrect appraisals of who you are and where you are going. You approach the unachievable with naive confidence, then get confused when you aren't able to be complete with your various projects. This creates an environment where others find you unapproachable and difficult to know. As you show genuine self-acceptance (including your limitations) your range of love expression increases.

## Uranus in Growth aspect to Pluto

You feel at the mercy of circumstances in life. Sudden changes seem difficult to foresee and hard to plan for. Your responses to change range the gamut from sharp overreaction to numbness. You are able to use change as a procedure of growth when you see that changes are a direct personal extension of a collision between where you have been in the past to where you wish to be in the future.

## Uranus Semi-Sextile Pluto

It is hard for you to see how you are responsible for the abrupt disruptions which dot the landscape of your life from time to time. The deep emotional content of your nature is often hidden so that you feel no connection to what your feelings are creating. Other people in your life can often "tip you off" when the effect of your emotions are emerging just outside of the periphery of your awareness. In the long run it is so beneficial for you to see how your feelings impact your friendships, and your life situations. You have lots of energy for personal change once you see how your feelings affect your life.

### E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane they are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

#### Sun Parallel Mercury

You place great importance on the mental faculty but you may yourself be quite nervous and temperamental. Fixing the worlds' problems starts with fixing your own physical and psychological instability. Once this is completed you are able to offer others a clarity of vision that is quite helpful in sorting out the details of normal cause and effect in your life and in the lives of others.

#### Sun Parallel Venus

A feeling of love and beauty fill you at some deep level and you are able to translate this into positive expectations about the future. You possess a sweetness and have a knack for creating harmony.

#### Sun Parallel Jupiter

Over-expanses gets you into trouble but your positive expectations help you gain many rewards in life. Your cheerful optimistic spirit assists you in bringing any project to a good conclusion. The ability to create more of whatever you have, becomes problematic whenever you have difficulties or troubles as they can also multiply. Your mental attitude holds the key to your actions, just as your values hold the key to the way your mental life unfolds.

#### Venus Parallel Jupiter

You have a sociable and hospitable nature. You have the ability to make the best out of any situation. This sometimes gets you into trouble because your expectations are sometimes beyond what the world can supply, therefore you can either suffer from overindulgence or over-extension.

#### Mars Parallel Saturn

A deep sense of how to serve colors your manner of self assertion. You can endure all kinds of hardships and keep on moving toward your goals in life without ever sacrificing your security. Physical exercise and movement can be a mechanism to regulate the underlying "on again, off again" emotions which you possess but don't often express.

### Moon Contra-Parallel Midheaven

You have an instinctive need to develop and nurture a home life. This can sometimes feed into a shyness or a secretiveness that makes it harder for you to propel yourself forward in life. When you do take steps to get your inner feelings out to a larger audience, you discover that you have real ability in dealing with groups.

### Mercury Contra-Parallel Neptune

Part of the charm of your personality is your ability to believe in the creative aspect of your own mind as well as your given faith in others. At times you may be taken advantage of and others may not be as worthy of your faith in them as we would like. In the long run you will desire to do something creative with your artistic vision and will learn to integrate the higher aspirations of your mind into the context of ordinary existence.

### Saturn Contra-Parallel Uranus

You possess inner strength which at its worst can be stubborn and cruel. At its best this aspect gives you great determination. You struggle internally between the gentle and the rigid side of your nature. In the long run you are capable of expressing a great humanitarian concern for your fellow beings.

## F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

### North Node of the Moon in Libra

Learn to listen to others before you draw conclusions and act. You have your vision colored by your own desires. Seeing that there are at least two sides to every issue, helps you get a well rounded picture of life. Diplomacy can help any dealings with others, but, only if it is based on real concern for the feelings and needs of others. You need to include others and their ideas, opinions, preferences, and wishes if your own life is to improve.

### North Node of the Moon in Libra and in the Fifth House
