Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Taurus Rising:

There is a distinct part of your outer personality that expresses itself very much like a Taurus. You are reliable, make a steadfast friend and you have an instinctive appreciation for the resources of the earth.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Taurus--what you have--will be integrated into almost every area of life in some way.

Venus is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Venus.

Mars Conjunct or in hard aspect to Asc.:

You meet challenges head on and others may see you as a "hard driver." Your personality projects a strong spirit and a lot of spunk.

You rarely back down in competitive situations and as a result, you've experienced your share of butting heads, especially with other so-called strong personalities.

Saturn Conjunct or in hard aspect to Asc.:

Your demeanor gives other people the impression that you are serious, even though you may have a well-developed sense of humor which becomes more apparent as they get to know you.

This aspect can function in one of two ways. You may become too easily discouraged when disappointments happen; on the other hand, you may decide to use the persevering element of Saturn's energy and become someone who makes lemonade out of life's lemons as many successful people have. The choice is yours.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Gemini:

Clever, social, and communicative, your general approach to life is light hearted. You can be somewhat hard to pin down because you have a wonderful natural curiosity about life. You prefer to know at least a little bit about everything. The restless nature of Gemini is quite conducive to your preference for a wide variety of experiences and mental pursuits. Geminis often won't take a particular subject into great depth, but for you, just having a taste of the smorgasbord that life offers is enough to satisfy.

This is the sign of communication in all of its various forms, whether verbal, written, or just learning for the joy of it. You like sharing what you have learned with others, and the latest news and even gossip has a hard time sneaking by you.

Because of your storehouse of bits of information, you find it easy to understand different viewpoints, and you prefer to agree with someone rather than create conflict.

Taking life too seriously is not appealing to you. "Lighten up" could be your motto and other people sense this, which generally makes you easy to be around and therefore in demand socially.

Sun in 1st house:

Personal fulfillment in life is reinforced by projecting your personality. You are self confident and you basically have a positive outlook on life. Other people are attracted to your vitality, enthusiasm and usually sunny personality. There is a powerful drive to achieve personal goals along with the courage to initiate whatever action is necessary to bring your desires to fruition.

There is a side to you that is active, aggressive and direct. You have strong drives and you can hold your own in competitive situations.

Neptune Conjunct or in hard aspect to Sun:

Your creative urges are stimulated by your imagination. However, the free expression of your will can be challenged by feelings of self doubt, making it necessary for you to avoid allowing yourself the luxury of self condemning thoughts. Stay away from negative modes of escapism (sleeping too much, drugs, etc.).

Trust inner voices that alert you to people, places and things that don't have your best interest at heart. To override this intuition is to invite disappointment and regrets. Observe the difference between true intuition and unrealistic fear.

Pluto in soft aspect to Sun:

The expression of your will receives a power punch from the planet of intensity, Pluto. You can meet and transform the most serious obstacles to your self development and growth. You can lead the pack, so to speak, because you have that special something called charisma.

Be sure to use your magnetism to further humankind in a positive direction. All leaders eventually reach a crossroad where they will choose between a path of manipulation and power, or conscientious service.

Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Cancer:

You are responsive, sympathetic and sentimental. You possess an excellent memory; however, that same memory may sometimes make you cling tenaciously to past hurts and injustices. Becoming aware of this tendency may help you to make a conscious decision to move on when it's in your best interest.

Your natural intuition about the energies in your environment can border on being psychic. This can make you especially vulnerable to the ups and downs of those you surround yourself with and your already sensitive emotional nature can become easily overloaded.

Activities revolving around your home and family have a profound effect on your well-being. Some people with Moon in Cancer need a certain amount of privacy in order to recharge their batteries and level themselves out emotionally. If you fall into this category, those closest to you must understand this need and respect it so that they will not feel personally rejected. You need a personal space (even if it's just a room) to call your own.

Moon in 3rd house:

You're quite imaginative, and there is a strong emotional need to communicate and to express your ideas. You need to be heard and you would like others to appreciate what you have to contribute intellectually. Your mind is changeable and you must make an effort to focus consistently on one thing at a time.

Your upbringing influenced your thinking and/or your attitude toward expressing yourself.

A close network of siblings, relatives, or even neighbors and community involvement are important to your emotional well-being.

Venus Conjunct or in hard aspect to Moon:

Other people find you to be a soft touch. There is a gullible side to you that will toughen up as you mature.

You also like to indulge yourself in immediate gratification and to heck with disagreeable duties; they can wait 'til later.

Jupiter Conjunct or in hard aspect to Moon:

When you become emotionally involved in a situation, you tend to blow things out of proportion. Once an emotion takes hold, it's hard for you to show restraint and then you wonder why others find it difficult to get as worked up as you are, or take you as seriously as you'd like.

When you're upset you can get careless and you cope by indulging your whims of the moment.

Uranus in soft aspect to Moon:

A heightened intuition and an independent nature combine to give you an electrifying and progressive nature. You're a rebel at heart. Any sudden and unexpected reversals in life usually turn out favorably in the end.

When emotional entanglements become too much to cope with, it's easy for you to turn icy and detached.

Sometimes you wonder if you'll ever be able to march to the same beat everyone else does. In truth though, you value your uniqueness as well you should.

Pluto Conjunct or in hard aspect to Moon:

Finding expression for your deepest emotions can be extremely difficult for you. Often you will simply choose to repress them until the unresolved issues surface again for acceptance and release. You'll benefit yourself greatly by finding an acceptable way to release emotional tension.

You can drastically change your life by doing whatever it takes to heal, forgive, and release any old childhood issues.

Chapter 4: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Gemini:

Mercury functions well in Gemini. This placement makes you curious and clever with fascinating bits of information about a variety of subjects. You learn easily and you have a never-ending curiosity about life. You love talking about whatever is going on, especially in your immediate environment. Your mind is logical and you possess a quick wit.

It's interesting to note that the sign of the twins (Gemini) is associated with the ability to mimic. It's easy for you to pick up and copy the accents and nuances of language. You might even be able to do verbal characterizations of other people with ease.

Easily bored, somewhat anxious and indecisive at times, the biggest challenge here becomes trying to focus on too many things at one time and thus having your projects sabotaged by a scattered approach.

Mercury in 1st house:

Most likely you are quite a talker. You like talking about yourself. That's O.K. People are attracted to your curious light-hearted demeanor and the way you can easily keep the conversation going. You enjoy gathering and sharing information. You can use the power of words to attract much of what you want out of life.

You strike others as youthful either in appearance or outlook.

Pluto in soft aspect to Mercury:

You can drastically alter your life utilizing the power of thought and words. Therefore, it is advisable to watch what you say and to banish negative thinking. Spoken and written affirmations carry extra weight with this aspect, so make them positive and life affirming.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Cancer:

A natural romantic, you are sentimental, charming and unselfish. This placement either makes you a mothering, nurturing partner, or it may work the other way around and make you long to be nurtured and cared for yourself. Hopefully, a balance can be obtained. Love equals security to you and you may often be imposed upon because others will sense your desire to please and attempt to take advantage of you. You may attract a partner who has some "growing up" to do in some regard.

Venus in Cancer people will never really forget a love affair or anyone else with whom there was a strong emotional attachment. The challenge here would be to let go of the past and move on when the time comes.

Venus in 3rd house:

Reading, writing, learning, and communicating your ideas to others gives you much personal pleasure.

Harmonious relationships with brothers and sisters (if you have them) are supported, and any conflicts with them are usually brought to a peaceful resolution. It may suggest that a sibling is involved in the arts.

Your manner of expressing yourself is laced with a certain amount of tact and diplomacy. Your mind is geared toward an appreciation for culture and the finer things in life.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Leo:

You are passionate, have a naturally magnetic sex appeal and you possess a strong self will. You are courageous, fearless and brave, especially during times of crisis. You don't like to lose, and this trait makes you an extremely stubborn opponent when challenged. Action and vitality combine to create the ability to finish what you start, or negatively, to make you likely to be someone who doesn't know when it's time to quit.

You can be quite the authoritarian. This is due to your ardent desire to complete projects once they are started, and you have little patience with those who can't match your enthusiasm and drive.

This position supports the actor / teacher / group leader / authority figure.

Mars in 4th house:

You are highly motivated to work diligently to fulfill your own security needs. More than likely you are willing to expend a great deal of your energy in and around your home.

Your upbringing may have been marked by aggression and anger by someone in that environment. You can have resentment issues with a parent. If this is the case, find a way to release them and move on emotionally.

Repressed anger can manifest as accidents. Don't neglect sensible home safety practices and learn some healthful ways to blow off steam.

Saturn Conjunct or in hard aspect to Mars:

You can be fairly hard on yourself and you may find that you must work harder and with more dedication in order to accomplish your many of your goals.

Impulses are controlled, which can be a blessing in a way because you will consider the consequences before acting. However, take care not to lose all sense of natural spontaneity and enthusiasm.

Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Cancer:

Benefits come to you through family, property and a secure home life. You are highly sentimental and you may have a hard time releasing the past.

Your heightened sensitivity to the moods and whims of other people may make you overly self-protective in an attempt to cope with unpredictable shifts in your environment.

You generally prefer to move with the flow of your peer group. Radical behavior is not your style and you'll only resort to it when all else has failed.

You can be kind hearted and charitable. You appreciate fine food and often there is a love of cooking not only for yourself, but for the enjoyment of others as well.

Your intuition is highly developed; trust it. You have a powerful imagination that can act as a natural reinforcement for any creative pursuits.

Jupiter in 2nd house:

You are fortunate when it comes to your money-making abilities. However, you can also be generous with yourself and others, and money will often leave as quickly as it comes in. Nevertheless, there is usually more where that came from. Your personal income should increase steadily as time goes on.

Uranus in soft aspect to Jupiter:

You can be a tremendous force for justice and fairness, where you're quick to spot imbalances.

Your philosophy is liberal and progressive, and you can lead the way for humanitarian interests. You may have some unusual concepts about the nature of religion and rigid dogma is a turn off for you.

Your freedom is paramount and you will find that overly restrictive environments tend to squelch your enthusiasm and drain your energy.

Pluto Conjunct or in hard aspect to Jupiter:

It may be difficult for you to find a life philosophy that offers you the answers that you seek. You have penetrating insight into such matters and if you came from a traditional orthodox religious background, you will almost certainly go through one or more major overhauls in your belief system.

You may be someone who feels compelled to take the all or nothing approach to life at times. All forms of extremism or fanaticism can wind up producing unwanted negative effects and you risk antagonizing those who would otherwise embrace your causes.

You possess a high level of ambition and the probability for some kind of large scale success or wealth would not be at all surprising with this aspect in your chart. Seek the middle path and try to avoid overindulgent lifestyles. A little self-imposed discipline is much easier to deal with, compared to having it forced on you from outside circumstances.

Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Leo:

A strong will coupled with your fine organizing talents can easily put you ahead of the game, especially in competitive situations.

Your sense of responsibility is often unyielding and you can be harder on yourself than anyone else. You may have come into this lifetime with an instinctive dislike for being the center of attention, however, this trait will probably be outgrown with time and maturity.

This is a lifetime in which you are encouraged to open your heart and freely express the love within.

Saturn in 4th house:

Feelings of inadequacy may have developed during your upbringing due to the influence of one or both parents. You were probably well cared for but there was something about the nurturing you received that seemed lacking in real warmth and security or perhaps there was a general tone of pessimism and restriction in that environment. You may go above and beyond as an adult in order to fill these "voids within" and you can end up being quite successful as a result.

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Scorpio:

Uranus was in the sign of Scorpio for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be decisive or to project a strong will, and you may even be somewhat extremist in nature. An experimental approach to sexual matters, the areas of metaphysics and healing, and also, major lifestyle changes are possible.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 6th house:

You can be ingenious when it comes to the work you do. This applies mostly to jobs that you take in order to survive. Perhaps you'd like to be your own boss. That's understandable, as Uranus in this house can create many changes surrounding employment.

You either work with unusual people or you may feel as though you are the one who is always out of step with the status quo.

You can develop a talent for doing detailed work if it's something you really have an interest in and it's not too boring.

Uranus is Retrograde

You can be a real character inside. Few people get this impression right away. You'd rather play the role of conformist until you feel comfortable enough to let your hair down. Then everyone is either shocked or pleasantly surprised depending on whom you hang out with.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Sagittarius:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 7th house:

You'll be happier and lessen the chance of letdowns in the partnership area if you learn to see people the way they really are rather than the way you'd like them to be. When you project intentions that are clear and you're willing to reveal your own true self then you are more likely to pull in people whom you can rely on. Any self doubts will be reflected back to you through others who are unreliable.

You search for the ideal partner and you can eventually attract someone who is like a spiritual mate. You're capable of making great sacrifices for the sake of partnerships.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Neptune is Retrograde

Ever heard the term "suffer in silence?" Does it apply to you? Ask yourself why you find it so difficult to share your real pain with others. Someone made you feel guilty a long time ago and now a part of you lives as though you're trying to make up for whatever the original so-called transgression was. You want to heal the whole world. Start with forgiving yourself in no uncertain terms. Unload other people's shabby misconceptions which have been foisted upon you and find the tranquility you deserve.

Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Libra:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Libra you're part of the generation that can experience radical changes in the marriage code, the justice system, arts and culture, as well as relations with others both here and abroad.

On a personal level, those with Pluto in Libra tend to be adaptable, intellectual, extravagant and concerned with fairness.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more

personal influence.

Pluto in 5th house:

When it comes to love, it's all or nothing as far as you're concerned. You either throw your whole being into it, or choose to remain completely detached.

It is important to express your will, but watch the temptation to use manipulation and control to get your way. It can backfire.

At some point in life, finding a creative outlet will have a healing effect on you. Do it for the pure enjoyment of it. Your attitude toward play and creativity can undergo a drastic change.

Pluto is Retrograde

Some people go through massive changes that are clearly shown in outer circumstances. You go through tremendous inner upheavals followed by rejuvenation on the inside. You are one strong individual. You have depth of character and a lot of class. You've earned it. You're like tempered glass. You might crack, but you won't shatter.

Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Libra:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Develop the ability to understand and appreciate opposing points of view, without necessarily giving up your own opinions. Find out that cooperation and diplomacy can help, not hinder your aims. Create the balance between what you give and what you receive. Discover that close, committed relationships between yourself and another person can benefit both of you.

North Node in 5th house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: get in touch with your own creative urges and honor your heart's desires. Recognize the importance of acknowledging your own will.

You can work well with children in some capacity, whether your own or other people's children. You can learn a lot by observing the play of children and then finding a way to mirror that in your own life.

Give full expression to your capacity to love. Make some time for socializing, the dating scene and partying. Work on feeling comfortable being the center of attention.

Explore the stock market and learn all about making some wise financial investments for yourself.

MC in soft aspect to Mercury:

The boss wants to hear what you have to say. You're lucky because you can get those in positions of authority to listen to your ideas. Communication skills will support your career ambitions.

Variety is the key to your career, either a variety of careers, or perhaps a medley of duties to perform within a single career. Reporter, writer, accountant, educator, researcher, scientist, salesperson. Wherever the transmission of information is necessary, therein lies a career possibility for you.

MC Conjunct or in hard aspect to Uranus:

You can be an extremely efficient worker. You have an aptitude for finding shortcuts and this inborn talent comes in very handily in the career department.

Your innermost self rebels at having to put up with a steady dose of being told what and how to do something. This is because you have an inventive mind that can zero in on a more effective way to get the job done. Alas, there are too many who would rather stick with the tried and true. These experiences can encourage you to find a way to be your own boss. You may be drawn to unusual career choices or those which allow you to express your unique ideas in some capacity.

Here are some career possibilities to consider: broadcaster, astrologer, high tech communications worker, computer whiz, airline pilot or airline worker, inventor, electrician, social activist, consultant, humanitarian, and anything that falls into the New Age category.

Four or more Water Signs

Emotional and feeling, you will learn all about sharing compassion and understanding. You are here to empathize with and nurture others. You often act on intuition which is based purely on gut feelings rather than logic.

You can fall for a hard luck story with the best of them. Beware of giving in to those who know how to push emotional buttons in order to sway your actions and opinions.

Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

Ruler of 1st house in 3rd:

You're curious about life and learning is important to you. You want to get your ideas noticed and communication is important to you.

There is a strong need to feel well integrated into your immediate community and you may make many short local trips.

You tend to have a lot of interest in your siblings if you have them and you identify strongly with close relatives in general.

Ruler of 2nd house in 1st:

What you have as far as the money you earn and your possessions influences your outlook on life, as well as your self image to some extent. Your early childhood probably influenced your value system and your sense of self worth.

Ruler of 3rd house in 3rd:

You have a strong desire to communicate your ideas, whether verbally or in written form and you may also be quite a talker. Something about your early childhood had a profound bearing your thinking and learning processes.

This can also indicate that siblings, relatives and others in your immediate environment can play a very important role in your life. You'll get a lot of personal satisfaction from becoming involved with neighborhood and community projects because it's not in your best interest to seclude yourself away from social activities.

Ruler of 4th house in 1st:

Your mother or your upbringing influenced your outlook on life or perhaps you learned at an early age that much of your emotional security foundation is built on yourself.

Your home and private life are a strong part of your identity.

Ruler of 5th house in 1st:

Your creative abilities are reflected in your outlook on life and love and romance are life experiences you strongly identify with.

The ability to satisfactorily express your own will has a positive effect on your outlook and approach to life in general.

Your children (especially the first) are a reflection of you. Your children or children in general could be very important to you.

Ruler of 6th house in 3rd:

You learned something about the work ethic during your childhood. The work you do may involve communications, writing, transportation, or teaching what you know.

You may end up working with relatives or you could have family "karma" with brothers/sisters or other close relatives.

Ruler of 7th house in 5th:

You will most likely marry for strong romantic feelings. Your partner may bring out the child in you or, he/she may stimulate your creativity somehow. They may also be supportive of your creative endeavors lending encouragement and support.

You have a close relationship with your children and you'd rather treat them as equals.

Ruler of 8th house in 2nd:

Other people's money or resources can strengthen your own financial picture. Other people's values can influence your own value system. The field of metaphysics could be a source of income for you.

Deep intimate bonding with another person is something you feel strongly about. You tend to bond with others emotionally as well as sexually and it's difficult for you to separate these feelings.

Ruler of 9th house in 4th:

Your spiritual beliefs support your feelings of emotional security. Someone during your upbringing influenced you with their own religious or philosophical beliefs.

Someone from overseas or from a long distance away may come to live with you later in life. Your in-laws might even live with you at some point.

Ruler of 10th house in 6th:

You would prefer to be your own boss with regards to the work that you do. Your career may involve helping others or being useful to other people.

You can be like an authority figure to co-workers, or you feel a strong sense of responsibility towards them. The same applies to your own employees, if you have them.

Your career can be connected to any health related field and the work you do can turn into your primary profession.

Ruler of 11th house in 7th:
