Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

## Chapter 1: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

### *Sun in Gemini:*

Clever, social, and communicative, your general approach to life is light hearted. You can be somewhat hard to pin down because you have a wonderful natural curiosity about life. You prefer to know at least a little bit about everything. The restless nature of Gemini is quite conducive to your preference for a wide variety of experiences and mental pursuits. Geminis often won't take a particular subject into great depth, but for you, just having a taste of the smorgasbord that life offers is enough to satisfy.

This is the sign of communication in all of its various forms, whether verbal, written, or just learning for the joy of it. You like sharing what you have learned with others, and the latest news and even gossip has a hard time sneaking by you.

Because of your storehouse of bits of information, you find it easy to understand different viewpoints, and you prefer to agree with someone rather than create conflict.

Taking life too seriously is not appealing to you. "Lighten up" could be your motto and other people sense this, which generally makes you easy to be around and therefore in demand socially.

### *Neptune Conjunct or in hard aspect to Sun:*

Your creative urges are stimulated by your imagination. However, the free expression of your will can be challenged by feelings of self doubt, making it necessary for you to avoid allowing yourself the luxury of self condemning thoughts. Stay away from negative modes of escapism (sleeping too much, drugs, etc.).

Trust inner voices that alert you to people, places and things that don't have your best interest at heart. To override this intuition is to invite disappointment and regrets. Observe the difference between true intuition and unrealistic fear.

### *Pluto in soft aspect to Sun:*

The expression of your will receives a power punch from the planet of intensity, Pluto. You can meet and transform the most serious obstacles to your self development and growth. You can lead the pack, so to speak, because you have that special something called charisma.

Be sure to use your magnetism to further humankind in a positive direction. All leaders eventually reach a crossroad where they will choose between a path of manipulation and power, or conscientious service.

## Chapter 2: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

### *Mercury in Gemini:*

Mercury functions well in Gemini. This placement makes you curious and clever with fascinating bits of information about a variety of subjects. You learn easily and you have a never-ending curiosity about life. You love talking about whatever is going on, especially in your immediate environment. Your mind is logical and you possess a quick wit.

It's interesting to note that the sign of the twins (Gemini) is associated with the ability to mimic. It's easy for you to pick up and copy the accents and nuances of language. You might even be able to do verbal characterizations of other people with ease.

Easily bored, somewhat anxious and indecisive at times, the biggest challenge here becomes trying to focus on too many things at one time and thus having your projects sabotaged by a scattered approach.

### *Pluto in soft aspect to Mercury:*

You can drastically alter your life utilizing the power of thought and words. Therefore, it is advisable to watch what you say and to banish negative thinking. Spoken and written affirmations carry extra weight with this aspect, so make them positive and life affirming.

## Chapter 3: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

### *Venus in Cancer:*

A natural romantic, you are sentimental, charming and unselfish. This placement either makes you a mothering, nurturing partner, or it may work the other way around and make you long to be nurtured and cared for yourself. Hopefully, a balance can be obtained. Love equals security to you and you may often be imposed upon because others will sense your desire to please and attempt to take advantage of you. You may attract a partner who has some "growing up" to do in some regard.

Venus in Cancer people will never really forget a love affair or anyone else with whom there was a strong emotional attachment. The challenge here would be to let go of the past and move on when the time comes.

## Chapter 4: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

### *Mars in Leo:*

You are passionate, have a naturally magnetic sex appeal and you possess a strong self will. You are courageous, fearless and brave, especially during times of crisis. You don't like to lose, and this trait makes you an extremely stubborn opponent when challenged. Action and vitality combine to create the ability to finish what you start, or negatively, to make you likely to be someone who doesn't know when it's time to quit.

You can be quite the authoritarian. This is due to your ardent desire to complete projects once they are started, and you have little patience with those who can't match your enthusiasm and drive.

This position supports the actor / teacher / group leader / authority figure.

### *Saturn Conjunct or in hard aspect to Mars:*

You can be fairly hard on yourself and you may find that you must work harder and with more dedication in order to accomplish your many of your goals.

Impulses are controlled, which can be a blessing in a way because you will consider the consequences before acting. However, take care not to lose all sense of natural spontaneity and enthusiasm.

## Chapter 5: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

### *Jupiter in Cancer:*

Benefits come to you through family, property and a secure home life. You are highly sentimental and you may have a hard time releasing the past.

Your heightened sensitivity to the moods and whims of other people may make you overly self-protective in an attempt to cope with unpredictable shifts in your environment.

You generally prefer to move with the flow of your peer group. Radical behavior is not your style and you'll only resort to it when all else has failed.

You can be kind hearted and charitable. You appreciate fine food and often there is a love of cooking not only for yourself, but for the enjoyment of others as well.

Your intuition is highly developed; trust it. You have a powerful imagination that can act as a natural reinforcement for any creative pursuits.

*Uranus in soft aspect to Jupiter:*

You can be a tremendous force for justice and fairness, where you're quick to spot imbalances.

Your philosophy is liberal and progressive, and you can lead the way for humanitarian interests. You may have some unusual concepts about the nature of religion and rigid dogma is a turn off for you.

Your freedom is paramount and you will find that overly restrictive environments tend to squelch your enthusiasm and drain your energy.

*Pluto Conjunct or in hard aspect to Jupiter:*

It may be difficult for you to find a life philosophy that offers you the answers that you seek. You have penetrating insight into such matters and if you came from a traditional orthodox religious background, you will almost certainly go through one or more major overhauls in your belief system.

You may be someone who feels compelled to take the all or nothing approach to life at times. All forms of extremism or fanaticism can wind up producing unwanted negative effects and you risk antagonizing those who would otherwise embrace your causes.

You possess a high level of ambition and the probability for some kind of large scale success or wealth would not be at all surprising with this aspect in your chart. Seek the middle path and try to avoid overindulgent lifestyles. A little self-imposed discipline is much easier to deal with, compared to having it forced on you from outside circumstances.

## **Chapter 6: Saturn**

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

*Saturn in Leo:*

A strong will coupled with your fine organizing talents can easily put you ahead of the game, especially in competitive situations.

Your sense of responsibility is often unyielding and you can be harder on yourself than anyone else. You may have come into this lifetime with an instinctive dislike for being the center of attention, however, this trait will probably be outgrown with time and maturity.

This is a lifetime in which you are encouraged to open your heart and freely express the love within.

## Chapter 7: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

### *Uranus in Scorpio:*

Uranus was in the sign of Scorpio for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be decisive or to project a strong will, and you may even be somewhat extremist in nature. An experimental approach to sexual matters, the areas of metaphysics and healing, and also, major lifestyle changes are possible.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

### *Uranus is Retrograde*

You can be a real character inside. Few people get this impression right away. You'd rather play the role of conformist until you feel comfortable enough to let your hair down. Then everyone is either shocked or pleasantly surprised depending on whom you hang out with.

## Chapter 8: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

### *Neptune in Sagittarius:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

### *Pluto in soft aspect to Neptune:*

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects

of this aspect are often generational and the outcome will affect large segments of the society you live in.

### *Neptune is Retrograde*

Ever heard the term "suffer in silence?" Does it apply to you? Ask yourself why you find it so difficult to share your real pain with others. Someone made you feel guilty a long time ago and now a part of you lives as though you're trying to make up for whatever the original so-called transgression was. You want to heal the whole world. Start with forgiving yourself in no uncertain terms. Unload other people's shabby misconceptions which have been foisted upon you and find the tranquility you deserve.

## **Chapter 9: Pluto**

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

### *Pluto in Libra:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Libra you're part of the generation that can experience radical changes in the marriage code, the justice system, arts and culture, as well as relations with others both here and abroad.

On a personal level, those with Pluto in Libra tend to be adaptable, intellectual, extravagant and concerned with fairness.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

### *Pluto is Retrograde*

Some people go through massive changes that are clearly shown in outer circumstances. You go through tremendous inner upheavals followed by rejuvenation on the inside. You are one strong individual. You have depth of character and a lot of class. You've earned it. You're like tempered glass. You might crack, but you won't shatter.

## Chapter 10: Elements and the North Node

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

### *North Node in Libra:*

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Develop the ability to understand and appreciate opposing points of view, without necessarily giving up your own opinions. Find out that cooperation and diplomacy can help, not hinder your aims. Create the balance between what you give and what you receive. Discover that close, committed relationships between yourself and another person can benefit both of you.

### *Four or more Water Signs*

Emotional and feeling, you will learn all about sharing compassion and understanding. You are here to empathize with and nurture others. You often act on intuition which is based purely on gut feelings rather than logic.

You can fall for a hard luck story with the best of them. Beware of giving in to those who know how to push emotional buttons in order to sway your actions and opinions.
