***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

**Chapter 1:
General characteristics of the year. The external conditions.**

Solar Return Ascendant Aries :

This year will bring new initiatives and projects. You will feel the desire to undertake new enterprises and take a new path. You will also feel impatient with your usual daily routine. If you are calm and slow by nature, this influence will make you more energetic, but if you are already a very active person, you will become more aggressive, perhaps even explosive and argumentative. You will definitely be energized this year. It is up to you to find ways to utilize this energy and drive in the best way.

If you would like to make a radical change in your life, or just want to assert your individuality more, this is the year to do it. The Mars energy will give you more courage and the will to take action, but you can also be more prone to accidents because you act hastily or impulsively, not thinking before you leap. Your own personal needs are more important to you at this time than the needs of others. You will also feel the desire to impose your opinions and will on others to a greater degree than usual, even to the point of strongly opposing them.

Under this influence you will feel stronger and more energetic. It would be a good time to take care of any health problem that arises. However, it is not a good year to have surgery if it can be put off to a later date. It would be advisable to engage in some physical activity or sport during this year in order to keep you more emotionally and physically balanced. You may suffer from fevers or headaches more frequently than you are accustomed to.

During this period you may find yourself wanting to spend time with Libra friends and associates as they can be a calming influence on you. It is possible for you to get involved in a new romantic relationship or better your relationships with business associates. If you are involved in some legal matter, it would be to your advantage to settle out of court, coming to some mutual agreement rather than exposing yourself to a law suit.

Solar Return MC Capricorn:

This is a very good year for competing in the work place and achieving your objectives. You will be very determined and will show much insistence in sharing your ideas with others. You will feel very ambitious and sure of yourself in your work, and you won't be given to fears or insecurity. However, take care not to move too quickly or hastily because that could bring some opposition from the others you work with.

If you are involved in science, administration, mathematics, or some sort of business enterprise, you will be very successful. You could be offered a position of more authority in your work, one that would give you the opportunity to direct and organize others, thereby leading to a promotion and/or raise. Although everything seems to indicate progress in the business world, you could also be drawn to pursue spiritual studies, making your personal growth more complete.

In selecting your goals it will be important to distinguish between principal and secondary ones, and choose them accordingly. Organization and constant work are the key words for becoming successful this year. On the other hand, you may be challenged with problems that need to be resolved, opponents who present a challenge to you, or disagreements with bosses or people who are in authority, which could hinder your growth. You are being tested this year to find your courage and trust in yourself. Don't give way to doubts or fears, but be firm

and act on your own ideas. Your success this year will be thanks to your perseverance and hard work and not due to luck.

On the home front, you will find those around you acting in a caring way giving you the emotional support you need. It is important that you don't sacrifice your personal life and loved ones for your ambitions and material matters. Be generous with your love and you will receive the answers and help you need from the people around you. It would be a good time to beautify your home, making necessary repairs and proceeding with improvements you previously may have planned.

Chapter 2: Astrological influence of your personality.

Sun in 2nd house:

Business and material matters in general will be very favored. Investments, purchases, negotiations and the increase of your capital will be the principal objectives of this period. You will concentrate your attention on everything related to money, and you will be successful in your enterprises, unless other astrological factors contradict this.

You could become so obsessed and worried about material things that you will overlook other important parts of your life, such as your spiritual life or your loved ones. Don't get so involved that you can't find a balance between financial security and emotional and spiritual growth in your life. However, your main objective this year will be to achieve economic stability and to improve your standard of living. You may find that you are able to acquire money more easily than you have in the past, and you will direct your will and your effort in that way.

There will also be a tendency to live big, spending more than you should on certain luxuries that at other times you wouldn't have indulged in. Spend your earnings wisely and save a little for the future. If you do, you can enjoy the benefits of this year for many years to come.

Sun opposition Jupiter:

There is a tendency to get involved in projects that could be beyond your capacity. Be realistic and don't get carried away with your exaggerated enthusiasm. Your positive attitude and your imagination will increase. This influence encourages you to undertake tasks or to run risks that you have not dared to do before. It is important that you don't overextend your energy so that you will be able to finish what you have started.

You could also become too generous and extravagant. This will be more noticeable if by nature you are a conservative person. You probably won't pay much attention to details or the opinions of others, which could lead to some sort of trouble. You also could become somewhat careless with your paper work and neglect to do what is expected of you.

This could be reflected in your daily diet as well, which consequently could lead to gaining weight. It is important to watch your nutrition and your liver. Don't indulge in food excessively.

Sun square Neptune:

Your idealism will be accentuated during this time and could cause you to be deceived by people in certain situations. Try to be realistic and keep your feet on the ground. There is a tendency to exaggerate reality and to develop insecurities or groundless fears. Under this influence, you are also inclined to daydream and to be careless with money and other things of value, which could expose you to robberies and other losses. You could find yourself in a state of confusion and uncertainty. This could affect your social or romantic relationships, bringing disillusionment, but also could very easily make you the victim. Don't avoid your responsibilities and become aware of your own errors.

Your level of energy will be low, and you could tire easily. Select your efforts and demands properly. Don't start projects or tasks that from the beginning seem impossible or very difficult to complete. You may have unusual or very strong reactions to medications, so don't hesitate to consult your physician as soon as it appears

that the medication is not working properly for you, or the negative side effects are too great. When possible, use treatments that are very safe and free of side effects, such as homeopathic remedies, for problems with your health.

The most adverse effect this influence could produce is becoming rather noncommittal in dealing with people or issues. You could shy away from problems and confrontations, which sometimes could complicate matters. This same noncommittal tendency could generate bad habits or an increase in your consumption of cigarettes, alcohol or drugs if you are accustomed to using them. You must keep these habits under control and resist the desire to escape or run away. One solution could be to strengthen your spirituality, providing you don't carry it to extremes and become a religious fanatic.

Sun sextile Moon:

You will show more enthusiasm and vitality during this year. Your thinking will be very positive and you will want to take the initiative and make decisions that you have not considered before. Your confidence in yourself will be recognized by others and you will receive support from your family and friends in general. It will be easy to carry out the changes that you propose which will benefit you in the future. You also could receive help from powerful or very influential women. Your popularity will increase and you will feel comfortable in your surroundings in spite of any difficulties that you encounter.

Your physical body will be very resistant to any type of illness. If you have some kind of on-going health problem at this time, it is probable that it will be successfully treated during this year. This is mainly due to the fact that you will find it easier to deal with your emotions, thereby putting less stress on your mind and body.

Sun sextile Asc:

During this year you will feel very good. You will enjoy the company of others and, therefore, your relationships will be very favorable. You will show great enthusiasm in your work and everything you do. You will be full of vitality, joviality, and energy. You will be attracted to happy and amusing people and events. There also is a possibility of planning some trips during this year.

Physically, you will have the necessary strength to combat any problems you may have. If you have some physical ailment, you will move toward healing it this year. The improvement will be due to your positive attitude and to your search for gratification and personal satisfaction. You will be revitalized and relaxed and, in return, will induce a similar response from your environment.

The relationship with your father, or with people who represent authority figures in your life, will be very favorable. You could receive the support and collaboration of people in high positions.

Sun quincunx Saturn:

Your energy level could fluctuate during this year which could lead to moments of depression or general fatigue. You will probably have the desire to isolate yourself to some extent even from a close companion or live-in partner. You should maintain a positive attitude and face life in a positive way. Otherwise, you will become very frustrated and unhappy.

It is important for you to develop your sense of responsibility, examining your life more objectively. The obstacles that you will encounter are due to your own negligence and disorder. During this time you will

experience some opposition or lack of support from those around you, especially those who are authority or parental figures for you.

Chapter 3: The emotional world.

Solar Return Moon in Leo :

Your emotions will be intense and spontaneous and you won't restrain yourself from expressing them. This will be a year of pleasure, and you will enjoy each place and each moment. Your disposition will be happy and enthusiastic. However, you could also be more self-willed. You will impress others with your confident attitude and trust in yourself that you will transmit to others. You could develop a greater sense of fairness and will become very protective of your loved ones during this time. You will also show a great aptitude for organizing and directing others.

You probably will receive more support from women in general, although there also could be strong disagreements and arguments because each party will have firm opinions and a tendency to be inflexible.

Your creativity will be excellent and if you have artistic inclinations, you will create and produce a lot during this year. Because of your emotional intensity, your work as well as your personal expression, will have a dramatic character. You will be thinking big and will have a tendency to exaggerate. If you let this get out of hand, you could become involved in a scandal. If by nature you are a more retiring person, you will be more uninhibited during this time and will surprise the people around you.

Your personal magnetism will also increase which could lead to romantic and sexual encounters. You will search for the admiration and the approval of others, which could result in jealousy in a committed partner. You will be very selective in the friends you spend time with and will not be easily satisfied with people who come into your life.

Your increased self-respect could bring you many benefits during this time, providing you don't neglect your goals.

Solar Return Moon in 5th house:

You will be inclined to make investments or take part in a speculative business that has a certain margin of risk. The earnings will be unexpected and could come through playing games of chance.

In addition, your physical attraction and personal magnetism will increase, which could bring romantic adventures. You will be drawn to seek out a life of pleasure and will want to have a good time all year. Other people will court you and you will receive countless invitations. This could cause trouble if you are in a committed relationship. You will also express your emotions in a more dramatic manner.

Your creativity will also increase. Search for ways in which you can express this energy that will enrich your daily life. If you have artistic talents, you will have a very productive year.

This astrological influence could also announce the arrival of a baby. In the chart of a woman, there is a clear possibility of pregnancy.

Moon trine Jupiter:

You will feel a sense of well-being and contentment all year. Your emotions will be very positive and you will be optimistic, happy, and generous. As a result you will earn the appreciation of people in general, increase your popularity and receive spontaneous, willing help from others, especially women.

You will have good fortune in the things that you undertake. This will be mainly due to your sincere and positive attitude. This will also spread to the financial area, where you will probably gain more income. In addition, the atmosphere in your home will be very positive and harmonious. Existing differences and disagreements could disappear during this time, and you will find the support and harmony that you need. The relationship with your mother as well as other women in your life will be very positive.

You could also grow in your love for mankind and your spirituality. You will offer your service to others and will receive the same in return. This will be a very happy year.

Moon trine Asc:

Your social life and the contact with others will be very favorable during this year. You will search for profound and intimate relationships, and you will be willing to help and protect the people you love. You also will become very sensitive and perceptive, which makes it easier to relate to the needs of others. Your understanding will be deep and intuitive.

You will receive the benefit and the protection of certain friendships with women, and any contact with the public in general will be very profitable. You will have charisma and will project an agreeable, warm, and caring persona.

You will also feel the need to belong to some group and will search for contact with people who have the same interests as you. They won't be difficult to find!

Moon semisquare Mercury:

Your mind will be very restless and uncertain during this time, and you could find yourself being more indecisive than usual. It is important that you make use of your ability to analyze and come to reasonable conclusions and not act too much on impulse. You may feel the desire to change your residence or to make changes in your home, but you should use caution so that you don't make a mistake.

You may have frequent problems in your home due to lack of communication. Avoid arguments so that you will be able to stay balanced. You could become the subject of gossip or criticism that could be upsetting to you.

The tendency toward desiring change will also affect your attitude toward your work and the success that you achieve will not be completely satisfactory because of your lack of perseverance.

Moon quincunx Saturn:

You could become more emotionally cold, distant, and detached during this time. You will have times when you feel unloved or not accepted by others and, as a consequence, you will tend to isolate yourself. Take care not to have negative or pessimistic thoughts and feelings of frustration.

You should confront the emotional issues that may resurface from your past. Your present dissatisfactions are due to these emotional injuries that have not been resolved. It is important to maintain your objectivity and not to develop feelings of guilt. You will have to deal with a karmic debt now so it would be very beneficial to maintain a positive attitude.

Home conditions won't be very favorable as you will receive opposition or indifference to your plans. Any type of change or making a move under this planetary aspect would not be advisable.

Moon quincunx Neptune:

You could experience deception or betrayal this year. It is important that you proceed with caution and that you don't idealize people around you too much. It will be easier for people to influence and convince you now.

Your subconscious mind will be very active, concentrating strongly on your fears and traumatic memories from your childhood. If you have any addiction to cigarettes, alcohol, or drugs, it will be difficult to overcome it during this time. It is important to keep control of yourself and any escapist attitudes you may have because these will only complicate your problems.

Moon quincunx Pluto:

Your emotions will be very profound, intense, and difficult to control with your own will. You could have violent and unexpected reactions due to the great activity of your subconscious mind. Fears and negative memories from your childhood will come to the surface, and it will be necessary to deal with them. Take care not to repress these emotions, but to allow them to be expressed freely now.

Conditions in your home could become tumultuous and you may find that someone is trying to manipulate you. At times you could also be the one who wants to manipulate the others. The relationship with your mother and with women in general will be closer, but there could be difficulties in communicating.

Solar Return Moon Conjunct natal Mars:

Your relationship with women and with the public in general will be particularly irritating. You won't have much patience and will respond in an aggressive manner without considering the feelings of others. Bitterness or unpleasant memories of your childhood may surface that will make you act impulsively and unconsciously. You may have frequent fights with your mother or with other influential women in your life.

In a man's chart, this influence marks a very aggressive and domineering attitude toward women. In the chart of a woman, it could indicate great dissatisfaction with her life and could lead to a self-destructive attitude. In either case, there is a tendency to react abruptly to the sensitivity of others.

Solar Return Moon Conjunct natal Saturn:

You will be indifferent and distant to affectionate demonstrations of others. You probably won't enjoy making public appearances and will prefer to remain in isolation much of the time. Memories of your childhood, the relationship with your mother or other women, and your family in general, could arouse inner feelings of guilt, limitation, or pain.

In a man's chart, this influence indicates great indifference toward the feelings of others due to past

frustrations or to pain that has still not been dealt with.

In the chart of a woman, it indicates an unresolved injury to your feelings, inner frustration and, possibly, some physical female problems.

***** SECOND PART *****

ANALYSIS OF THE 12 ASTROLOGICAL HOUSES. INNER RESPONSES.

HOUSE 1: Personality. Principal interest of the year.

Solar Return Asc in or within 3 degrees of natal 12th house:

You could be mainly interested in the study of metaphysics and in developing your intuition.

During this year, you could experience strong limitations on your freedom, brought about by your past mistakes. The same could apply to problems with health that require rest or confinement and to other problems you encounter with secret enemies who are opposed to your progress. During this period you will have to deal with karmic debts that influence the progress of your spiritual evolution. These tests will be difficult to overcome, and it will be necessary on your part to remain positive and not allow yourself to feel defeated.

Uranus in 1st house of Solar Return:

You will need more freedom and independence during this year. You may be acting differently and strangely, which will surprise and confuse the people who know you. You will be more tense and keyed up and will resent too much routine or obligation or any limitation to your freedom. Don't expect to receive too much understanding from others because they will not know how to respond to the new you.

You should be more careful than usual because this influence will make you more unpredictable and risk taking, thereby becoming more prone to accidents or speaking out too bluntly. You won't be as interested in or willing to listen to the opinions of others. You will feel the need to make changes in your life, becoming more open and willing to reach out more. You will be attracted to everything new, strange, or unknown, and to risky situations.

Your health could be affected due to the great degree of stress that you may suffer during this year. You must try to get enough rest and practice some relaxation exercises.

HOUSE 2: Financial situation.

Solar Return 2nd cusp Conjunct natal 1st cusp:

Your financial earnings will depend exclusively on your personal effort. This influence will bring opportunities for improving your monetary situation but you will have to take advantage of them by responding to whatever comes your way. In the long run, you could show such concern for material gain that you neglect other important areas of your life.

Venus in 2nd house of Solar Return:

During this year, your finances will improve. If your work is related to art, aesthetics or creative expression, you will have much monetary gain. Since you will have more money to spend, you will be inclined to make investments and purchases that will improve your quality of life. It would be wise to keep your spending under control because there is also a tendency to be wasteful or to indulge in unnecessary luxuries. You could spend money on jewelry, art work, very expensive clothes, and other items that beautify your life or your home. This astrological influence can cause you to become less practical and to be more extravagant than usual.

You will be very good in negotiations and transactions of any type because of your ability to manage people with diplomacy and softness. This would be a good year to apply for and receive a loan if you need one.

HOUSE 3: The conscious mind. Study, communication, and short trips.

Solar Return 3rd cusp Conjunct natal 2nd cusp:

You will have good ideas about how to earn money. They might be related in some way to communication or might require you to take a number of short trips. You might also conduct some business with your siblings or other family members.

Solar Return 3rd cusp Conjunct natal Sun:

During this year you will begin to test your ability to communicate and express your ideas with clarity. Success will depend in great measure on the trust you have in your own ideas and in your decision-making powers. You will express yourself and assert your authority through both oral and written communication this year.

Mercury in 3rd house of Solar Return:

There is a possibility of beginning some type of study now. If you are already involved in some course of study, you will probably be very successful. You will be very curious and interested in increasing your knowledge. You will also find it easy to communicate and to express yourself in writing, as well as orally. Your curiosity will inspire you to take some short trips during this period, which will put you in contact with new people and increase your knowledge.

Communication with siblings and other relatives will be more easy and open. You won't be able to stay still for any length of time and will constantly be searching for continued action. One drawback could be that you will get bored very quickly. You can profit from this time by remembering to keep an open mind to new experiences and not hold on to old and outdated ideas.

Solar Return Mercury Conjunct natal Jupiter:

You will feel very happy and satisfied listening to the ideas and comments of other people. You will show your good humor and optimism about their opinions and will enjoy almost any type of conversation that you engage in. Their ideas could arouse a desire in you to expand your vistas and to enlarge your knowledge in those

areas that interest you. However, you could also be easily taken in by the words of others and neglect to check out or thoroughly analyze their comments.

HOUSE 4: The home.

Solar Return 4th cusp Conjunct natal 3rd cusp:

There is a possibility of taking several short trips that will keep you away from your home a lot. You could also have the desire to move to another city. If you are engaged in a writing project, you will complete it this year. And, also, if you are a student, you will finish your studies with success. However, problems involving your family could interfere with your mental concentration.

Solar Return 4th cusp Conjunct natal Moon:

Problems in your home will affect you emotionally. You will be very tuned into the activity in your home environment. You will get along especially well with your mother or other women who you are close to. You might also think about making some changes in your home.

Solar Return 4th cusp Conjunct natal Jupiter:

You will feel very happy in your home and will have the desire to expand in some way, perhaps moving to a larger place or making some renovations in your present location. You will enjoy the company of your loved ones and will share very happy moments together. Your generosity and your desire to protect your family members will increase. You could feel so peaceful and content that you might even overlook some major problems that may exist.

The climate in your home could be rather troubled with frequent disputes and disagreements between those who you live with. You will be overly sensitive and very quick to anger over the least little thing. You could act very inappropriately and compulsively during this time. It is important to maintain an awareness of your acts and try to moderate your reactions.

There could be a lot of activity in your home with you working on repairs or things that need to be completed. But you also may find opposition to your plans from others who share your home, and at that time, you may wish that you lived alone. Living with parents would be particularly difficult at this time.

There will be danger of fire in your home with this astrological influence. Be sure to increase your protection to avoid problems of this type. The greatest possibility for this to occur will be the last three months of this solar year.

Solar Return Mars Conjunct natal Moon:

Your sensitivity may be hurt by aggressive or dominating people. When you are confronted by this kind of person, you will react in an emotional manner. This kind of response on your part could irritate another person who resents your not standing up to him or her.

Solar Return Mars Conjunct natal Venus:

You will have greater ability to handle the aggressive behavior and the tension created by others in a calm and understanding way. Nervous people will be attracted to you due to your ability to make them feel calmer and more relaxed. On the other hand, it is also possible that your passivity and refusal to get upset could irritate other people.

This astrological influence could bring you a very passionate, new romance during this year.

Solar Return Mars Conjunct natal Jupiter:

You will be very kind and pleasant even in the presence of aggressive or nervous people. You will be understanding and won't let their anxiety get to you.

HOUSE 5: Romance & amusement. Relationship with children.

Solar Return 5th cusp Conjunct natal 4th cusp:

HOUSE 6: Health and illness. Employment. Service.

Solar Return 6th cusp Conjunct natal 5th cusp:

There is a tendency to neglect your health due to excessive pleasure seeking. Take care to not overdo eating or drinking. If you have children, this influence could also bring problems with their health.

You will find much satisfaction and pleasure in the work you do this year. You also could have a love affair or romance with someone in your work place.

HOUSE 7: Associations. Marriage and partnerships.

Solar Return 7th house cusp in or within 3 degrees of natal 6th house:

This year could bring concern over the illness of a spouse, business associate, or close friend. It would also be a good idea to take special precautions regarding your own health. Watch what you eat and get plenty of exercise.

You could have an increase of work and responsibility at your work place. For example, you may have to take on the responsibilities of a co-worker who becomes sick or otherwise handicapped.

Solar Return 7th cusp Conjunct natal Pluto:

Your relationship with your spouse or partner could arouse hidden feelings and emotions that you were not aware of. Consequently, this could cause inner changes in you which could bring about a transformation in your life. On the other hand, you could also find yourself getting into tense, aggressive situations. There could be confrontations with others due to your attempt to manipulate them. This could also be true of your relationships with friends and business associates.

HOUSE 8: Life and death issues, inheritances, and mysteries.

Solar Return 8th cusp Conjunct natal 7th cusp:

This astrological influence could indicate the end of a romantic relationship or an association. Ongoing problems stemming from the past will become irreconcilable during this period. This will result in a crisis of some sort which can transform your attitude toward your close relationships.

If you are married, your spouse could receive an inheritance or legacy.

HOUSE 9: Religion and spirituality. Long-distance travel.

Solar Return 9th cusp Conjunct natal 8th cusp:

You will develop a more philosophical and spiritual attitude about life and death issues. It won't be a good year for taking long trips unless you plan it very well. There is the possibility of frustrations, problems, or dangers abroad. You could also have very disturbing financial difficulties.

Solar Return 9th cusp Conjunct natal Neptune:

You will become attracted to mystical or spiritual exploration during this year. You may get very excited about some new concept or truth which will give you insight from which you gain illumination and spiritual revelation. This will be especially true if you are already a spiritual seeker. Otherwise, you might just feel

confused due to inner doubts that make it difficult for you to relax and to make sound decisions. You could also have the desire to take a long ocean voyage or to travel to an area which is situated near water.

Jupiter in 9th house of Solar Return:

During this year, travel to foreign countries will be very good. If you have been thinking about doing some kind of traveling, this would be a good year for it. Your interest in learning about distant lands and cultures will increase.

The desire to increase your knowledge will lead you to study and to connect with other people from whom you can gain the information you are looking for. Your consciousness will expand and you will also be curious about exploring such fields as philosophy and religion. You will find it easy to concentrate and to comprehend the answers to abstract questions. You will be able to put your old prejudices aside and explore your own spirituality more deeply and honestly.

This year will also be very good for activities related to politics and the law.

Solar Return Jupiter Conjunct natal Neptune:

However, you may find that there are delays and obstacles standing in the way of your achieving your goals and objectives. The gains you make will not be in proportion to the effort you have put into it. You will also find that making these changes may take longer than you thought they would. This will be a year of difficult testing for you in your professional life. You will become plainly aware of your own talents and limitations. The more realistic you are, the better you will be able to direct your energies in a positive manner.

Your health could suffer from depression or hard-to-diagnose illnesses stemming from emotional distress. For mild problems such as fatigue, indigestion, or headaches, avoid, if at all possible, taking drugs or medication because they could harm your body. For serious health problems, it is likely that you will need to consult with several health care practitioners before you are clear about the cause and best treatment for the problem.
