## \*\*\*\*\* INTRODUCTION \*\*\*\*\*

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

**Chapter 1:  
General characteristics of the year. The external conditions.**

*Solar Return Ascendant Scorpio :*

This will be a year of internal regeneration. You will be prompted to go within to confront your most profound feelings and your deepest inner self, which always produces tension until you are ready to come to terms with yourself. Your attitude will be very confrontational and authoritative. You should be aware of how you handle yourself and maintain control. This year you will be tested. You can expect to encounter certain adversaries and opposition. You will be dealing with the results of your past actions. If what you have sown is positive, then what you reap will be the same. Very possibly, you will not be aware of your past errors. You could, therefore, experience some types of restrictions or problems during this period. For example, you may not have taken something that deserved more attention seriously enough. Or you may have neglected to act on an issue that could have been turned in your favor later on. Or you may have acted too aggressively in some situation.

Don't let negative emotions like anger, bitterness, jealousy, hate and vengeance control you. This makes it more difficult to deal with matters successfully. It will be a year to work on those emotions and undo the blockages that have stood in your way too long. It will not be an easy task, but it is certainly not impossible either.

In general, the obstacles that seem to come during this period will be due to many unexpected things occurring one after another which will tax your patience greatly. However, you will find the necessary strength to deal with them.

If you are naturally calm and easygoing, you will find yourself being more demanding and explosive. If you already have an aggressive and demanding personality, you should search for positive ways to use this energy in order to avoid problems. In either situation, it would be advisable to engage in some physical activity during this year such as walking, gymnastics or sports. This will help you to relax and get a restful night's sleep.

Some type of psychological counseling or therapy should prove to be extremely beneficial during this time.

On the other hand, you will become more intuitive and your interest in extrasensory perception and the paranormal will be increased. Trust your impressions and perceptions because they will undoubtedly be quite accurate.

You may also be dealing with money matters, mostly concerning the possessions and finances of others. At this time you have a good chance of receiving money through inheritance or legal judgments in your favor.

Physically, you could be subject to sexual infections or inflammations during this time. In women, this influence affects your fertility and can sometimes result in unwanted pregnancies.

You may be involved in an intense, or even tragic, romance. There could be jealousy and scandal involved. However, it is also possible to establish lasting, stable relationships by expending a little effort. You might be attracted to the sensuality of a romantic Taurus. Your sex life will be very intense.

*Solar Return MC Virgo:*

This year favors all tasks, projects and objectives requiring mental proficiency and accuracy. You will feel the need for perfection in everything you do and will analyze your work more carefully. You will be more particular and careful in your work or business, therefore doing an excellent job with everything you do.

Your helpful side will come to the surface now and you will be willing to collaborate and cooperate with everyone who needs it. Although you will concentrate mostly on business achievements, you won't entirely neglect your personal life. Work or business related to administration, organization, detail work, and the sciences are very favorable. It is important during this year that you continue to study and to improve in areas where you may need it. Don't neglect your intellectual growth!

You could find yourself worrying about lack of money or time to get everything done. There is also a tendency to worry too much about things in general. This could interfere with your efficiency and productiveness so it is important for you to use your own discernment in doing your work so that you don't lose track of your ambitions and goals along the way.

On the home front, you could feel the desire to escape from everything by making your home your refuge from the strains and stresses of the outside world. You will require harmony and peace at home with the people you live with. It is important to surround yourself with green plants in your home. And you may enjoy having a small pet to keep you company and relax your tension. Ventilate your rooms well and utilize natural light whenever possible.

It would be a good idea to give attention to securing your home more carefully from possible break-ins or robbery.

## **Chapter 2: Astrological influence of your personality.**

### *Sun in 2nd house:*

Business and material matters in general will be very favored. Investments, purchases, negotiations and the increase of your capital will be the principal objectives of this period. You will concentrate your attention on everything related to money, and you will be successful in your enterprises, unless other astrological factors contradict this.

You could become so obsessed and worried about material things that you will overlook other important parts of your life, such as your spiritual life or your loved ones. Don't get so involved that you can't find a balance between financial security and emotional and spiritual growth in your life. However, your main objective this year will be to achieve economic stability and to improve your standard of living. You may find that you are able to acquire money more easily than you have in the past, and you will direct your will and your effort in that way.

There will also be a tendency to live big, spending more than you should on certain luxuries that at other times you wouldn't have indulged in. Spend your earnings wisely and save a little for the future. If you do, you can enjoy the benefits of this year for many years to come.

### *Sun conjunction Saturn:*

The weight of responsibilities and obligation could limit your freedom. You will have to organize your life during this year and tackle situations that you have put aside before. This astrological conjunction forces you to see things realistically. It is important that you become aware of this because, the more realistic you are, the more profit you will gain this year. You will probably have to forego, or limit, the time you normally spend on amusement and entertainment. You will have a more serious and responsible attitude; this will be a year of maturation.

But you could also feel alone and isolated from others, experiencing great difficulty in expressing your emotions. You may feel inhibited and have doubts about where you're going, which could bring about distress or depression. It is important to see things with good humor and optimism, and to work in a persevering way in order to achieve your goals.

This influence could weaken your energy level, and it is advisable that during this time you concentrate your efforts on the most necessary and important tasks.

### *Sun conjunction Pluto:*

This astrological aspect will bring profound changes in your life. Hidden, repressed feelings and desires will come to the surface, causing a change in your personality. It is important that you accept these emotions and don't attempt to repress them again, because, if you do, you will only feel more anxious and tense. You will be more aggressive and impatient than at other times, and you will be working more from the subconscious level. This will be a year of transformation and profound changes for you and could bring you a wide range of new experiences.

Under this influence, you will also be inclined to worry about repairing and fixing the things that don't work in your life, both at home and at work. You also may be concerned with replacing or repairing those things that

don't give good service anymore or things that have already served their useful purpose, for example, your car, home furnishings, or clothing.

You may experience tensions with people who attempt to control you or exercise authority in your life. You will be confronted with people of very strong character who think they know what is best for you but are not taking into consideration your needs or interests. Be careful not to react too aggressively in return.

The negative side of this influence is that it could bring unsavory elements or risky, violent situations into your life. It would be wise to avoid parts of your city where robberies and violence are common.

#### *Sun sextile Neptune:*

During this year you will develop a great deal of idealism. You will have a very keen perception that will allow you to judge people correctly on your first impression and you will be able to sense their reactions in advance. This is a good year for the studies of metaphysical or occult sciences in general. You might think about developing your intuition or powers of perception.

You will actively participate in groups or institutions that help people in need. Your desire to help others will be very strong and will incline you to put your own interests aside during this year. The activities that you undertake in this period will give you much pleasure on the spiritual level. Your approach to God and religion also will be very important. You could get much benefit from prayer or meditation.

As far as relationships are concerned, you are more likely to be looking for a platonic relationship rather a romantic one. It's important for you to be realistic and do your best to see people clearly, with all their faults as well as virtues, in order to guard against being deceived or hurt.

In addition, if you are devoted to music or the art world, you will have many moments of inspiration that will benefit you in your work.

During this period you could benefit considerably from being around water. Every time you become tense or unbalanced, you should go to some place where you can be near water, such as a river, ocean, or lake. If that is not possible, you could take long showers or baths to revive your energy.

#### *Sun semisquare Venus:*

You may encounter, and have to deal with, some unresolved romantic problems from the past. Stay calm and develop a positive attitude toward your partner, as well as your social life in general. The irritations and displeasures caused by others could be the reflection of your own inner uneasiness. This aspect generates a desire for comfort and pleasure, which could lead to disruptions in your routine, followed by a possible loss of income. Do your best to control these yearnings and search for a creative solution for your inner dissatisfaction.

#### *Sun semisquare Asc:*

Your vanity and personal pride could increase considerably during this time, causing problems with communication and relationships with people in your environment. This applies especially to people in authority. You could have disagreements with your boss at work or male family members or friends. Be aware of your actions and take care not to act too impulsively.

You could waste a lot of energy trying to impose your ideas on others and fighting with those who attempt to dominate you. Your physical body could be affected because you may drive yourself to exhaustion. It would be advisable to maintain an adequate diet during this time that gives you the necessary nutrition to keep up your energy level.

*Sun semisextile Jupiter:*

You will have lucky streaks during this year and can rely on the support of other people. Your optimism and your positive attitude toward life in general will increase. You probably will have a desire to increase your knowledge about certain subjects and will learn more by studying. There also is a possibility of some travel during this year. Don't place too much trust in your imagination, but use your energies to accomplish the work that is important. Resist the tendency to look for comfort and ease.

### **Chapter 3: The emotional world.**

#### *Solar Return Moon in Sagittarius :*

You will have a happy year and will express your emotions with happiness and enthusiasm. You will display a spirit of adventure and will want to get involved in activities such as sports, travel, or physical competition that involved some risk and adventure. The relationship with your mother and other women will be positive. Although there could be some disagreements, in general your relationships will be happy and you will take each suggestion with enthusiasm.

This would be an ideal year to take one or more long-distance trips. Due to your desire to learn and expand your knowledge, you will want to travel and visit new places. Because you will have an extra dose of enthusiasm and optimism, you will undertake enterprises that you never before have dared. One of the most important aspects this influence generates is a mentally positive attitude. You will be very willing to try almost everything and will be confident that you will achieve good results.

You might also develop an interest in exploring your spiritual and religious beliefs, searching for a deeper understanding of yourself.

It could be very difficult for you to remain still for any length of time or to stay in the same place during this year. Therefore, it is important for you to find an outlet for your excess energy.

#### *Solar Return Moon in 1st house:*

You will be very sensitive and emotional and will pick up the vibrations and moods of others in your environment more easily. Therefore, your moods could more changeable and unpredictable. You will need to learn how not to take on the negative energy of people around you. Therefore, you will develop a protective instinct which will shield you from the negative energy of others and make you more concerned with yourself and your needs. You should consider it carefully before making the changes that you think you want to make. Don't make impulsive decisions because they wouldn't work out now. Because you will be more sensitive and impressionable, you should wait until you can think clearly and realistically before making a final decision. There is a possibility that you will make a move of your residence and/or do some traveling.

During this year you will have more contact with the public and will increase your popularity. Your personal magnetism will attract the attention of others, and sometimes you will receive praise, but other times you could receive criticism. Either way, you will be noticed!

You will receive support and encouragement from the women who have influence in your life for the achievement of the goals that you propose during this time.

For women, this influence increases fertility a lot.

#### *Moon conjunction Mercury:*

Your thinking will be strongly influenced by your emotions, which will be both positive and negative. You will talk a lot about your feelings, and your communication will be fluent. You will be more imaginative, and if you are in a creative or literary field, this influence will be very beneficial. Business relationships in general will

be favored.

At times you could become depressed over small issues, and you could find yourself involved in more trivial or superficial conversations, paying less attention to more important matters. You might also tend to spend a lot of energy talking about new projects but not going into explicit details. You may have frequent and unexpected mood changes so take care not to make impulsive, final decisions.

Communication with your mother and with women in general will be very positive.

*Moon square MC:*

You could become dissatisfied with your professional achievements and consequently want to make changes in your work. These changes will be made impulsively without being clearly thought out, which could lead to future regrets. Take care to be as rational and careful as you can when making any decisions.

You could also be the recipient of hard criticism or gossip concerning your work performance. These comments will most frequently come from women in your life and will affect you strongly and immediately. Your ever changing moods could greatly hamper your decision making ability. You will need to review your priorities in regards to your work and your home and act accordingly.

*Moon trine Uranus:*

You will be on the lookout for people who will interest you and help you to escape your daily routine during this year. You will have the desire to move in a more independent way and will want to express your emotions freely. The changes that will come will be very beneficial and will help you to achieve the freedom that you will need and seek out.

Your imagination, creativity, and intuition will increase. You will conceive very original, new ideas that will be of much benefit to you. You might even have an idea for an invention, particularly something which could be used in the home.

Your emotions will be changeable and sudden which could give you the desire and the opportunity to get into an unusual relationship of some kind which could change your life considerably. If you are in a stable relationship during this time, you might want to make some changes which you believe will make your relationship more fulfilling. It is important that you make some changes in your daily routine. If you act in an intelligent and organized way, your changes will be beneficial and constructive.

If you participate in some group activity, there is a possibility of you becoming the leader and wanting to propose some changes in its structure. There also could be unexpected changes in your home environment that will help you to live with more comfort and freedom.

Your intuition will sharpen and this could bring the possibility for some psychic or mystical experiences during this year.

*Solar Return MC in or within 3 degrees of natal 3rd house:*

You may have to take some short trips relating to your profession, or you may receive certain job proposals by mail or other communication. Your professional growth will be in direct relationship to your intellectual achievement, your conscientious pursuit of your studies, and your relationship with your environment. If you are involved in some type of intellectual work, you will have much success during this year.

*Solar Return MC Conjunct natal Saturn:*

You won't be very satisfied with your profession or current work. You could become frustrated because of not being able to do what you would like to do or because of the load of responsibilities. During this year you will become aware of your true situation and, unless you become too discouraged with it, you will begin to work slowly and patiently to achieve your goals. It is important that you not develop negative or pessimistic thoughts in reference to your future possibilities because this would only complicate things more.

### **HOUSE 11: Friendships and social life.**

*Solar Return 11th house cusp in or within 3 degrees of natal 4th house:*

You will base many of your hopes and expectations on profit gained from investments in real estate or land.

This influence brings changes in your circle of friends. On one hand, certain friendships will become closer to the point that you are more like family. And on the other hand, there is the possibility of ending some friendships. You will want to be more hospitable and will organize social affairs in your home.

### **HOUSE 12: Limitations, enmities and hidden things.**

*Solar Return 12th house cusp in or within 3 degrees of natal 4th house:*

Your home will be a place of many concerns and limitations. You may feel isolated from others or limited in your decision-making powers. This influence could indicate the necessity to make expensive repairs that you can't afford or you may have some problems with leases and rentals. You should also be careful and selective in your choice of people you invite to your house because not everyone will be your friend. Your home could be the scene of intrigue, deception, or theft.

*Venus in 12th house of Solar Return:*

You will show an unusual amount of compassion and generosity during this year. You will become less selfish and more willing to give up your own privileges in order to help others. Your main interest will be helping the less fortunate and those who are in need, and you probably will be guided to work with those organizations that serve that purpose.

Your love life could become very difficult during this year. You could get involved in a secret love relationship that could complicate an already existing relationship. You will be inclined to give more to others than you need to. You must use your compassion wisely and take care not to play the role of martyr or victim. You should use your own judgment and evaluate the condition of your present love life in order to arrive at a satisfactory solution. Be careful not to allow yourself to be unduly affected by feelings of inferiority or by memories of the past that tend to weaken your self respect. If you do, you will have a very difficult year of problems resulting from self blame and dissatisfaction in general. Love could lead you down the wrong path if you don't look at things with a logical, steady mind. It's also important not to waste time getting involved in situations that aren't in your best interest.
